Issues of Human Resource Management Ladislav Mura, 2017-06-07 The book *Issues of Human Resource Management* written by well-known authors is a result of a teamwork of specialists who have been dealing with the issue of managing human resources in different contexts. The authors from Germany, Spain, Turkey, Slovakia, and Romania have submitted results of their current research and have presented important findings that are becoming a starting point for making managers' decisions so that their businesses can be competitive. You have put your hands on a selection of the best scientific contributions that have been reviewed and now are offering a space for an active debate on partial issues of the given topic. The authors in their work examined also the factors of psychology applied in HRM, the organization of companies and its impact on human resource management, workers' motivation and incentives and investment into human resources development. They searched the field of human resource management in family businesses, the quality of relationship in a workplace and specifics of human resource management in non-governmental organization.

Advancing Student Employability Through Higher Education Christiansen, Bryan, Even, Angela M., 2024-01-29 The global skills gap and labor market disruptions pose a significant challenge for organizations worldwide. Higher education struggles to bridge the mismatch between skills taught in academia and those demanded by employers, hindering organizations in an era of heightened competition. *Advancing Student Employability Through Higher Education* offers a comprehensive solution to address this issue. Edited by Bryan Christiansen and Angela Even, this publication brings together innovative research and insights from employers and employees, serving as a valuable resource for academic scholars seeking the latest research on employer requirements in an era of increasing global hyper-competition. Covering topics like industry-academia collaboration, educational innovation, learning analytics, and educational artificial intelligence (AI), the book provides practical strategies and innovative approaches to bridge the gap between academic instruction and real-world organizational needs. It equips students with the skills and qualifications necessary to thrive in today's global economy through case studies, online learning effectiveness, and training evaluation. By leveraging the expertise of renowned scholars and industry practitioners, the book

enhances understanding of the intricate dynamics of the workforce It empowers scholars graduate students and higher education professionals to navigate the evolving needs of organizations fostering success for individuals and organizational growth in an increasingly competitive landscape Servant Leader Human Resource Management G. Roberts,2014-09-11

Servant Leader Human Resource Management provides a comprehensive conceptual framework based on a dignity enhancing stewardship model that integrates and balances mission achievement with motive means and ends integrity from both a line manager and human resource department perspective **Organizations as Complex Systems** Maurice Yolles,2006-09-01

Managing the Complex is an ambitious title and it would be an audacious one if we were not to begin with a frank admission to date few to none of us have a skill set which includes managing the complex We try various things we write about others and we wonder about still others When a tool perspective or technique comes along which seems to evoke success we emulate it probe it and recoil at the all too often admission that it was situation and context which afforded success its opportunity and not some quality intrinsic to the tool perspective or technique Indeed if the study of complexity has done anything for managers and for those who espouse managerial theory it is in providing a scientific foundation for the notion that context matters Those who preach abstract ideas have then to reconcile themselves to the notion that situation and embodiment matters Those who believe in strong causality and determinism are left to wrestle with the role of chance uncertainty and chaos Those who prefer to argue that men move history are confronted with the role of environment and affordances while those who argue the reverse are left to contend with charisma irrationality of crowds and the strange qualities we know as emotions A series on complex systems has less ambitious goals to contend with than this Such a series can deal with classifications and categories and speak of noise as if it were not the central focus of the problem Managing the complex is about managing noise or perhaps we should say it is about dealing with accepting making room for and learning from noise The articles in this volume and in volumes to come will each be considered as noise by some and as gems by others but we hope that practicing managers and academics alike will find plenty of fuel to drive their personal explorations into understanding and perhaps even managing the complex ECKM2015-16th European Conference on Knowledge Management Maurizzio Massaro and Andrea Garlatti,2015-09-02

These proceedings represent the work of researchers presenting at the 16th European Conference on Knowledge Management ECKM 2015 We are delighted to be hosting ECKM at the University of Udine Italy on the 3 4 September 2015 The conference will be opened with a keynote from Dr Madelyn Blair from Pelerei Inc USA on the topic The Role of KM in Building Resilience On the afternoon of the first day Dr Daniela Santarelli from Lundbeck Italy will deliver a second keynote speech The second day will be opened by Dr John Dumay from Macquarie University Sydney Australia ECKM is an established platform for academics concerned with current research and for those from the wider community involved in Knowledge Management to present their findings and ideas to peers from the KM and associated fields ECKM is also a valuable opportunity for face to face interaction with colleagues from similar areas

of interests The conference has a well established history of helping attendees advance their understanding of how people organisations regions and even countries generate and exploit knowledge to achieve a competitive advantage and drive their innovations forward The range of issues and mix of approaches followed will ensure an interesting two days 260 abstracts were initially received for this conference However the academic rigor of ECKM means that after the double blind peer review process there are 102 academic papers 15 PhD research papers 1 Masters research papers and 7 Work in Progress papers published in these Conference Proceedings These papers reflect the continuing interest and diversity in the field of Knowledge Management and they represent truly global research from many different countries including Algeria Austria Bosnia and Herzegovina Brazil Canada Chile Colombia Cuba Cyprus Czech Republic Estonia Finland France France Germany Hungary India Indonesia Iran Ireland Italy Japan Jordan Kenya Lithuania Mexico Nigeria Norway Pakistan Poland Portugal Romania Russia Slovakia Slovenia South Africa Spain Sri Lanka Sultanate of Oman Sweden Switzerland Thailand The Netherlands UK United Arab Emirates USA and Venezuela

Renewable Energy Clusters Gudrun Jaegersberg, Jenny Ure, 2017-08-08 Taking eleven countries in Europe Canada South Africa America Latin America and Australia this book discusses recurring barriers to cluster development in the renewable energy sector The authors look at the real world dynamics and tensions between stakeholders on the ground with a particular focus on the relationships between SMEs and other actors This trans regional study is unique in its scale and scope drawing on a decade of field research to show how by learning from the successes and failures of other clusters costs and risk can be reduced The book fills a significant gap in the literature for policymakers managers and economic developers in a key market

Leader Development for Transforming Organizations David V. Day, Stephen J. Zaccaro, Stanley M. Halpin, 2004-04-12 This book examines numerous topic areas that are considered to be especially relevant for making a strategic leader development investment The topics covered are areas that have theoretical and empirical connections to important aspects of growth change adult development and underlying abilities skills and competencies needed to lead effectively in times of great complexity In addition these are investment areas identified by the U S Army a world class organization faced with the need for radical transformation as particularly relevant for success and survival This book identifies key concerns in developing leaders and leadership and in transforming organizations to better meet the challenges of a complex world There are two aspects of this book that distinguish it from the numerous existing volumes on leadership in the scholarly and popular press literatures Most important the overarching focus of the present book is on development There are many offerings on the topic of leadership but relatively few that focus on leader development especially from a scholarly academic perspective Also this volume offers a unique perspective in examining those underlying psychological competencies and processes that are viewed as especially relevant for leader development The chapters that are collected in this edited volume were originally commissioned by the U S Army Research Institute as white papers to better help Army officers and researchers understand important issues in leader development

The present organization of the papers is around four central themes a Accelerating Leader Development b Cognitive Skills Development c Developing Practical and Emotional Intelligence and d Enhancing Team Skills *The Practice of Enterprise Modeling* João Paulo A. Almeida, Monika Kaczmarek-Heß, Agnes Koschmider, Henderik A. Proper, 2023-11-24 This book constitutes the proceedings of the 16th IFIP Working Conference on the Practice of Enterprise Modeling PoEM 2023 which took place in Vienna Austria during November 28 December 1 2023 PoEM offers a forum for sharing experiences and knowledge between the academic community and practitioners from industry and the public sector This year the theme of the conference is Enterprise Modeling in the Circular Economy The 12 full papers presented in this volume were carefully reviewed and selected from a total of 34 submissions They were organized in topical sections named as follows Enterprise modeling and artificial intelligence emerging architectures and digital transformation modeling tools and approaches and enterprise modeling at work *Optimal Management Strategies in Small and Medium Enterprises* Vemić, Milan B., 2017-01-18 Business sustainability is becoming increasingly difficult amongst the demands of today's markets By implementing new and dynamic practices organizations can optimize their day to day operations and improve competitive advantage *Optimal Management Strategies in Small and Medium Enterprises* is a key source on the latest innovations in enhancing all main management functions such as working capital and marketing and examines how to implement sustainable business management practices Featuring extensive coverage across a range of relevant perspectives and topics such as human resources development market orientation and knowledge management this book is ideally designed for business managers professionals graduate students and researchers working in the field of smaller scale business development initiatives **Manufacturing Servitization in the Asia-Pacific** Jing Wang, Michitaka Kosaka, Ke Xing, 2015-10-24 This book systematically describes the development of manufacturing servitization in the Asia Pacific region It offers a practical and theoretical reference guide to the manufacturing companies in the Asia Pacific region which is now a major global manufacturing center Servitization is a fairly recent trend in the manufacturing industry some American and European manufacturing companies have successfully transformed to service oriented manufacturing companies over the past three decades while Asian Pacific region companies have only more recently begun to recognize the importance of servitization But some Asia Pacific region companies have been exploring approaches in the same direction of servitization without being aware of the concept One unique aspect of this book is the fact that it takes into consideration the social and cultural influences of this region It introduces companies within and beyond the region as well as the academic world to the current state of development of the Asia Pacific manufacturing industry and its servitization trend This is the first book that focuses on this topic one which is of great theoretical and practical importance **Organizational Change for Corporate Sustainability** Dexter Colboyd Dunphy, Andrew Griffiths, Suzanne Benn, 2003 Using specific examples of incremental and transformational changes and outlining the long term corporate benefits of sustainability the book examines the changes

required to achieve true sustainability
