Mitterrand A Study In Ambiguity:

Mitterrand Philip Short, 2014-12-22 Aesthete sensualist bookworm politician of Machiavellian cunning François Mitterrand was a man of exceptional gifts and exceptional flaws who during his fourteen years as President strove to drag his tradition bound and change averse country into the modern world As a statesman and as a human being he was the incarnation of the mercurial contrarian France which Britain and America find so perennially frustrating He embodied the ambiguities and the contradictions of a nation whose modern identity is founded on a stubborn refusal to fit into the Anglo American scheme of things Yet he changed France more profoundly than any of his recent predecessors arguably including even his great rival Charles de Gaulle During the war he was both the leader of a resistance movement and decorated for services to the collaborationist regime in Vichy After flirting with the far Right he entered parliament with the backing of conservatives and the Catholic Church before becoming the undisputed leader of the Left As President he brought the French Communists into the government the better to destroy them And all the while he managed to find time for an extraordinarily complicated private life This is a human as much as a political biography and a captivating portrait of a life that mirrored Mitterrand's times

The Year of Indecision, 1946 Kenneth Weisbrode, 2016 The Year of Indecision 1946 overturns the image of U S president Harry Truman as a can do leader and shows instead his presidency as troubled In 1946 Relations broke down with the Soviet Union and nearly did with the British The U S suffered shortages and strikes of a magnitude it had not seen in years In November 1946 the Democrats lost both houses of Congress The tension between fear and optimism expressed itself too in popular culture Through a vivid portrait of Truman and a single year Ken Weisbrode offers an alternative perspective on history

Actor-Network Dramaturgies Stefano

Boselli,2023-08-14 This book provides key critical tools to significantly broaden the readers perception of theatre and performance history in line with posthuman thought each chapter engages Actor Network Theory and similar theories to reveal a comprehensive range of human and non human agents whose collaborations impact theatre productions but are often overlooked The volume also greatly expands the information available in English on the networks created by several Argentine artists Through a transnational transatlantic perspective case studies refer to the lives theatre companies staged productions and visual artworks of a number of artists who left Buenos Aires during the 1960s due to a mix of personal and political reasons By establishing themselves in the French capital queer playwright Copi and directors Jorge Lavelli Alfredo Arias and J r me Savary among others became part of the larger group of intellectuals known as the Argentines of Paris and dominated the Parisian theatre scene between the 1980s and 90s Focusing on these Argentine artists and their nomadic peripeteias the study thus offers a detailed description of the complexity of agencies and assemblages inextricably involved in theatre productions including larger historical events everyday objects sexual orientation microbes and even those agents at work well before a production is conceived

Fear of a Yellow Vest Planet Peter Wilkin,2021-06-29 The Yellow Vest

Gilets Jaunes protests that started in November 2018 have rocked French political culture and led critics to denounce the movement as being a threat to democracy or worse Among other things the protestors were accused of being barbarians philistines racists anti Semites and reactionaries who would destroy both France and European civilization In fact this book argues that the protests must be understood as part of a wave of protests against the extension of the market into all areas of social life that have been taking place around the world since the 1980s While the Yellow Vest protests embrace a range of actors that cut across the French political spectrum the agenda that rapidly emerged from the movement in the shape of the People's Directive shows that it is a broadly progressive protest that has articulated radical ideas and practices with a view to transforming French political culture by means of direct democracy The end goal is to be a new social order which is environmentally sustainable and built around principles of social justice In this respect its ideas and actions are a challenge to mainstream French political culture

Mao Philip Short,2016-12-18 One of the great figures of the twentieth century

Chairman Mao looms irrepressibly over the economic rise of China Mao Zedong was the leader of a revolution a communist

who lifted hundreds of millions out of poverty an aggressive and distrustful leader and a man responsible for more civilian deaths than perhaps any other historical figure Now four decades after Mao's death acclaimed biographer Philip Short presents a fully updated and revised edition of his ground breaking and masterly biography Vivid uncompromising and unflinching Short presents in one volume the man behind the propaganda his family his beliefs and his horrors In doing so he shows us both the human being Mao was and the monster he became *The New Intergovernmentalism* Christopher J. Bickerton, Dermot Hodson, Uwe Puetter, 2015-07-16 The twenty years since the signing of the Maastricht Treaty have been marked by an integration paradox although the scope of European Union EU activity has increased at an unprecedented pace this increase has largely taken place in the absence of significant new transfers of power to supranational institutions along traditional lines Conventional theories of European integration struggle to explain this paradox because they equate integration with the empowerment of specific supranational institutions under the traditional Community method New governance scholars meanwhile have not filled this intellectual void preferring instead to focus on specific deviations from the Community method rather than theorizing about the evolving nature of the European project The New Intergovernmentalism challenges established assumptions about how member states behave what supranational institutions want and where the dividing line between high and low politics is located and develops a new theoretical framework known as the new intergovernmentalism The fifteen chapters in this volume by leading political scientists political economists and legal scholars explore the scope and limits of the new intergovernmentalism as a theory of post Maastricht integration and draw conclusions about the profound state of political disequilibrium in which the EU operates This book is of relevance to EU specialists seeking new ways of thinking about European integration and policy making and general readers who wish to understand what has happened to the EU in the two troubled decades since 1992 **The Cartiers** Francesca Cartier Brickell, 2021-06-08 A dynamic group biography studded with design history and high society dash This elegantly wrought narrative bears the Cartier hallmark The Economist The astounding Andr  Leon Talley story of the family behind the Cartier empire and the three brothers who turned their grandfather's humble Parisian jewelry store into a global luxury icon as told by a great granddaughter with exclusive access to long lost family archives Ms Cartier Brickell has done her grandfather proud The Wall Street Journal The Cartiers is the revealing tale of a jewelry dynasty four generations from revolutionary France to the 1970s At its heart are the three Cartier brothers whose motto was Never copy only create and who made their family firm internationally famous in the early days of the twentieth century thanks to their unique and complementary talents Louis the visionary designer who created the first men's wristwatch to help an aviator friend tell the time without taking his hands off the controls of his flying machine Pierre the master dealmaker who bought the New York headquarters on Fifth Avenue for a double stranded natural pearl necklace and Jacques the globe trotting gemstone expert whose travels to India gave Cartier access to the world's best rubies emeralds and sapphires inspiring the celebrated Tutti Frutti jewelry

Francesca Cartier Brickell whose great grandfather was the youngest of the brothers has traveled the world researching her family's history tracking down those connected with her ancestors and discovering long lost pieces of the puzzle along the way Now she reveals never before told dramas romances intrigues betrayals and more The Cartiers also offers a behind the scenes look at the firm's most iconic jewelry the notoriously cursed Hope Diamond the Romanov emeralds the classic panther pieces and the long line of stars from the worlds of fashion film and royalty who wore them from Indian maharajas and Russian grand duchesses to Wallis Simpson Coco Chanel and Elizabeth Taylor Published in the two hundredth anniversary year of the birth of the dynasty's founder Louis Fran ois Cartier this book is a magnificent definitive epic social history shown through the deeply personal lens of one legendary family

Margaret Thatcher Robert Philpot, 2017-07-06 Margaret Thatcher's premiership changed the face of modern Britain Yet few people know of the critical role played by Jews in sparking and sustaining her revolution Was this chance choice or simply a reflection of the fact that as the Iron Lady herself said I just wanted a Cabinet of clever energetic people and frequently that turned out to be the same thing In this book the first to explore Mrs Thatcher's relationship with Britain's Jewish community Robert Philpot shows that her regard did not come simply from representing a constituency with more Jewish voters than any other but stretched back to her childhood She saw her own philosophical beliefs expressed in the values of Judaism and in it too she saw elements of her beloved father's Methodist teachings Margaret Thatcher The Honorary Jew explores Mrs Thatcher's complex and fascinating relationship with the Jewish community and draws on archives and a wide range of memoirs and exclusive interviews ranging from former Cabinet ministers to political opponents It reveals how Immanuel Jakobovits the Chief Rabbi assisted her fight with the Church of England and how her attachment to Israel led her to internal battles as a member of Edward Heath's government and as Prime Minister as well as examining her relationships with various Israeli leaders

Vietnam and the Cold War 1945-1954 John Pike, 2024-06-30 A forensic study of Vietnam's war imperial history and international relations in the years following the Second World War A forensic study of war imperial history and international relations following the Second World War and leading into the Cold War and defeat of Western imperialism in Asia And above all the story of the pivotal battle and French defeat at Dien Bien Phu It shows France's revanchist attempt to regain imperial glory in her former Asian empire following humiliation in the Second World War defeat and Vichy The effort was spurred by de Galle's chauvinism and desire to recover France's honour and reputation after so many humiliations by friend and foe The Communist led Vietminh were guided to victory by ruthless revolutionary Ho Chi Min far from the attractive Uncle Ho who is revered as a communist saint in contrast to louche playboy emperor Bao Dai and the very able General Giap Communist strength in rural Vietnam society the Vietminh represented a nation in arms was backed by supplies from Communist China and the Soviet Union It was an existential struggle on the French side the end of cafe society and the gravy train for planters officials the military and politicians Military matters including General Giap's strategy and tactics are analyzed in detail but it

was a soldiers war told at ground level and readers will feel the heat and fear of battle be shocked at war crimes and intrigued by the tales of Graham Greene et al The global importance was not lost on the powers following exhaustion from world war and in the shadow of the Cold War All great leaders were involved Roosevelt Truman Eisenhower Churchill Stalin Khrushchev Chou En Lai and Mao Zedong Under the shadow of the A bomb a negotiated peace and first detent of the Cold War would end in the sumptuous salons of Geneva

Safe Haven Jon Silverman, Robert Sherwood, 2023-09-05 The controversial 1991 War Crimes Act gave new powers to courts to try non British citizens resident in the UK for war crimes committed during WWII But in spite of the extensive investigative and legal work that followed and the expense of some 11 million it led to just one conviction that in 1999 of Anthony Andrzej Sawoniuk Drawing on previously unavailable archival documents transcripts of interviews with suspects and disclosures by senior lawyers and policer offers in the War Crimes Units WCUs in parallel with the history of bungled investigations in the 1940s Safe Haven considers for the first time why and how convictions failed to follow investigations Within the broader context of war crimes investigations in the United States Germany and Australia the authors reassess the legal and investigative processes and decisions that stymied inquiries from the War Crimes Act itself to the restrictive criteria applied to it Taken together the authors argue that these including the interpretations of who could and should be prosecuted and decisions about the nature and amount of evidence needed for trial meant that many Nazi collaborators escaped justice and never appeared in a criminal court The authors situate this history within the legacy of the Holocaust how if at all do the belated attempts to address a failure of justice sit with an ever growing awareness of the Holocaust represented by memorialization and education In so doing Safe Haven provokes a timely reconsideration of the relationship between law history and truth

Criddle, 2014-11-18 This engaging exploration of the French Socialist Party details the exceptional problems that the party has faced and the way it has dealt with them The result is a comprehensive and compelling guide to the quiddities of political infighting the structure of power and of the environment in which the party operates

European-Russian Space Cooperation Brian Harvey, 2021-04-10 The story of European Russian collaboration in space is little known and its importance all too often understated Because France was the principal interlocutor between these nations such cooperation did not receive the attention it deserved in English language literature This book rectifies that history showing how Russia and Europe forged a successful partnership that has continued to the present day Space writer Brian Harvey provides an in depth picture of how this European Russian relationship evolved and what factors scientific political and industrial propelled it over the decades The history begins in the cold war period with the first collaborative ventures between the Soviet Union and European countries primarily France followed later by Germany and other European countries Next the chapters turn to the missions when European astronauts flew to Russian space stations the Soyuz rocket made a new home in European territory in the South American jungle and science missions were flown to study deep space Their climax is the joint mission to explore Mars

called ExoMars which has already sent a mission to Mars Through this close examination of these European Russian efforts readers will appreciate an altogether new perspective on the history of space exploration no longer defined by competition but rather by collaboration and cooperation A Companion to the Biopic Deborah Cartmell, Ashley D. Polasek, 2020-01-15

The most comprehensive reference text of theoretical and historical discourse on the biopic film The biopic often viewed as the most reviled of all film genres traces its origins to the early silent era over a century ago Receiving little critical attention biopics are regularly dismissed as superficial formulaic and disrespectful of history Film critics literary scholars and historians tend to believe that biopics should be artistic yet accurate true to life representations of their subjects Moviegoing audiences however do not seem to hold similar views biopics continue to be popular commercially viable films Even the genre's most ardent detractors will admit that these films are often very watchable particularly due to the performance of the lead actor It is increasingly common for stars of biographical films to garner critical praise and awards driving a growing interest in scholarship in the genre A Companion to the Biopic is the first global and authoritative reference on the subject Offering theoretical historical thematic and performance based approaches this unique volume brings together the work of top scholars to discuss the coverage of the lives of authors politicians royalty criminals and pop stars through the biopic film Chapters explore evolving attitudes and divergent perspectives on the genre with topics such as the connections between biopics and literary melodramas the influence financial concerns have on aesthetic social or moral principles the merger of historical narratives with Hollywood biographies stereotypes and criticisms of the biopic genre and more This volume Provides a systematic in depth analysis of the biopic and considers how the choice of historical subject reflects contemporary issues Places emphasis on films that portray race and gender issues Explores the uneven boundaries of the genre by addressing what is and is not a biopic as well as the ways in which films simultaneously embrace and defy historical authenticity Examines the distinction between reality and the real in biographical films Offers a chronological survey of biopics from the beginning of the 20th century A Companion to the Biopic is a valuable resource for researchers scholars and students of history film studies and English literature as well as those in disciplines that examine interpretations of historical figures

Thatcher Graham Goodlad, 2015-12-14 Thatcher provides an accessible and scholarly introduction to the personality and career of Britain's first female political leader and the twentieth century's longest serving Prime Minister Providing a balanced narrative and assessment of one of the most significant figures of the post war era this new biography examines the reasons why Margaret Thatcher has been admired by many as an architect of national revival yet loathed by others as the author of widening social and geographical division The book begins by examining the making of Margaret Thatcher her education the beginning of her political career and her rise through the Conservative Party to her appointment as unexpected leader Moving on to her tenure as Prime Minister Graham Goodlad then examines her impact at home and abroad covering her controversial economic policies and hard line with the trade unions leadership through the Falklands

conflict and during the last decade of the Cold War and influence on Britain's relationship with a more closely integrated Europe. Finally the biography closes with a review of Thatcher's legacy before and after her death in April 2013 and considers how far she shaped the politics and society of the 1980s and those of our own time. Thatcher is essential reading for all students of twentieth century history and politics. *European Integration Since the 1920s* Mark Hewitson, 2024-10-14

Brexit populism and Euroscepticism seem to have challenged old assumptions about European integration and raised the prospect of disintegration. This book re-examines why the European Union and its forerunners were created and investigates how and why they have changed. It links contemporary events to historical explanation, arguing that there were long term sets of conditions dating back to the 1920s which pushed European governments to cooperate economically and to try to resolve their diplomatic differences. The failure of the French and German governments to create what Aristide Briand had called a European federal union demonstrated both the precariousness of the enterprise and its connection to the domestic politics of European states. After 1945 the unexpected advent of a Cold War and the military, diplomatic and economic presence of the United States in Europe facilitated the gradual development of habits of cooperation and institutional integration but they also placed limits on European governments' activities as did disagreements between political parties and the expectations of citizens. As a consequence supranational bodies such as the European Commission have been accompanied and often overshadowed by intergovernmental institutions such as the European Council with the EU as a whole functioning in important respects as a type of confederation. The volume addresses a series of large scale historical questions which are integral to an understanding of the European Union. It asks how and why citizens of member states have identified with the EU, how matters of security affected the development of the European Community during and after the Cold War, whether economic and social convergence have taken place and with what consequences and why European institutions have come to function as they have. The study is thematic, focusing on the most important aspects of European integration and explaining why member states have decided to carry out or have consented to the unique experiment of the European Union. A Choice Outstanding Academic Title of the Year Finalist for the 2021 Prose Awards Biography/Autobiography category. *At the Risk of Thinking* is the first biography of Julia Kristeva, one of the most celebrated intellectuals in the world. Alice Jardine brings Kristeva's work to a broader readership by connecting Kristeva's personal journey from her childhood in Communist Bulgaria to her adult life as an international public intellectual based in Paris with the history of her ideas. Informed by extensive interviews with Kristeva herself, this telling of a remarkable woman's life story also draws out the complexities of Kristeva's writing, emphasizing her call for an urgent revival of bold interdisciplinary thinking in order to understand and to act in today's world.
