Halwat Hikmat,Yasir Sidiq,Naufal Ishartono,Yunus Sulistyono,Patmisari,Susiati,2023-08-29 This is an open access book The COVID 19 pandemic in the last two years has influenced how educational system works Online learning became the primal policy taken by all institutions in the world to lower the risk of the virus spread Despite the drawbacks of the online learning teachers and students were accustomed with the distant learning through web meetings Learning Management Systems LMS and other online learning platforms In that time topics under digital learning and education 5 0 were the main stakes in academic disseminations This year some institutions start to conduct their teaching and learning process classically as before the pandemic others are still continuing online and not few are in hybrid This leaves a question what learning reform should be made in post pandemic era This conference invites researchers experts teachers and students to discuss the coping solutions of the question It is important for them to contribute to the understanding of re imaging online education for better futures innovative learning design new skills for living and working in new times global challenge of education learning and teaching with blended learning flipped learning integrating life skills for students in the curriculum developing educators for the future distance learning humanities learning in the digital era assessment and measurement in education challenges and transformations in education technology in teaching and learning new learning and teaching models Not limited to these scholars may add another interesting topic related to learning reform in post pandemic era to present **You Say to Brick** Wendy Lesser,2017-03-14 Born in Estonia 1901 and brought to America in 1906 the architect Louis Kahn grew up in poverty in Philadelphia By the time of his mysterious death in 1974 he was widely recognized as one of the greatest architects of his era Yet this enormous reputation was based on only a handful of masterpieces all built during the last fifteen years of his life

Wendy Lesser's *You Say to Brick The Life of Louis Kahn* is a major exploration of the architect's life and work. Kahn, perhaps more than any other twentieth-century American architect, was a public architect. Rather than focusing on corporate commissions, he devoted himself to designing research facilities, government centers, museums, libraries, and other structures that would serve the public good. But this warm, captivating person, beloved by students and admired by colleagues, was also a secretive man, hiding under a series of masks. Kahn himself, however, is not the only complex subject that comes vividly to life in these pages. His signature achievements, like the Salk Institute in La Jolla, the National Assembly Building of Bangladesh, and the Indian Institute of Management in Ahmedabad, can at first seem as enigmatic and beguiling as the man who designed them. In attempts to describe these structures, we are often forced to speak in contradictions and paradoxes: structures that seem at once unmistakably modern and ancient, enormous built spaces that offer a sense of intimate containment, designs in which light itself seems tangible, a raw material as tactile as travertine or Kahn's beloved concrete. This is where Lesser's talents, as one of our most original and gifted cultural critics, come into play. Interspersed throughout her account of Kahn's life and career are exhilarating in situ descriptions of what it feels like to move through his built structures. Drawing on extensive original research, lengthy interviews with his children, his colleagues, and his students, and travel to the far-flung sites of his career-defining buildings, Lesser has written a landmark biography of this elusive genius, revealing the mind behind some of the twentieth century's most celebrated architecture.

The Academy and Literature

Charles Edward Cutts, Birch Appleton, Charles Edward Doble, James Sutherland Cotton, Charles Lewis Hind, William Teignmouth Shore, Alfred Bruce Douglas, Ellis Ashmead-Bartlett, Thomas William Hodgson Crosland, 1871. *Serendipity* Becky Chalsen, 2024-06-04. Named Most Anticipated by Bustle. Brit Co. This summer, for three weekends in a Fire Island share house, be enough time for Maggie Monroe to fix her life, find love, and make sure she doesn't lose her friends for good. It's been six years since Maggie followed her screenwriting dreams to Los Angeles and forgot to look back. But things in Hollywood didn't go quite to plan. Now twenty-five and suddenly home in New York, Maggie doesn't know who she's more anxious to see: her ex-boyfriend Mac or her ex-best friend Liz. For Liz, Maggie is the girl who abandoned her at the worst possible moment, and an unwelcome surprise who could derail her perfect summer. Liz is recently engaged to her high school sweetheart, Cam, but Maggie's arrival brings old wounds bubbling to the surface, exposing the cracks in Liz's apparent happily ever after. When Maggie accepts her former friends' unexpected invitation to join in their summer share house, a rental named *Serendipity*, she knows it's the chance she needs to get her life back on track. For three weekends, Maggie, Liz, Cam, Mac, and their closest friends will take the ferry to Ocean Beach, Fire Island, for some sun-kissed bliss, if only they can avoid the drama of their past catching up to the present. With the nostalgic flavor of a stack of sepia-toned Polaroids and perfect for fans of Emily Henry, Jennifer Weiner, and Ann Brashares, this big-hearted, page-turning story delves deep into a complicated friend group as they navigate one messy yet magical midtwenties summer.

Danner,J. Worth Pickering,Tisha M. Paredes,2023-07-03 Using Focus Groups to Listen Learn and Lead in Higher Education presents an easy to use 6 step guide to help leaders in higher education listen to and learn from their stakeholders in order to enhance decision making The big questions facing institutions today especially those surrounding access affordability and accountability require more than dashboards Metrics and quantitative data alone do not offer lasting solutions and improvements Using qualitative methods to listen to the voices of those involved especially students and staff is critical Focus groups constitute the most appropriate rigorous and relevant qualitative research tool for this purpose and one that is cost effective and builds community when conducted using the ODU Method described in this book Using Focus Groups is a single comprehensive and practical resource that describes why when and how to use focus groups The authors provide detailed guidance for using focus groups

from developing the research questions with stakeholders through training and recruiting moderators and identifying and recruiting participants to the logistics of conducting focus groups and ultimately analyzing data and developing final reports. Conversational vignettes illustrate the discussions that regularly occur in each step and help the reader better understand the process. Fifteen appendices provide templates and examples of every part of the process. Written particularly for institutional research and assessment staff and upper level administrators, this book will also appeal to deans, department and program chairs and directors, faculty leaders and administrative unit directors including those in auxiliary and student services, alumni associations and university foundations. It also serves as an excellent resource for higher education research methods courses. The authors are uniquely positioned to guide readers in this process. The team developed and refined this technique over two decades at Old Dominion University. They have conducted over 100 focus groups with campus, nonprofit, local and international community organizations to assist them in assessing student learning transition and preparedness for the workforce as well as evaluating organizations work and planning future projects.

Presents a diverse perspective of successful inspirational and progressive women in science and engineering. Women of today from 29 countries provide overviews of their successful careers, the challenges they faced and offer advice. They have lived in the same era and perhaps also the same environment as you. **Successful Women Ceramic and Glass Scientists and Engineers 100 Inspirational Profiles** features women born in the 1920s to 1970s. Reflecting a diversity of backgrounds and different sectors of the workforce, their profiles include Affiliation, points of contact, accomplishments, most cited publication, most prestigious recognitions, awards, etc. Personal insight on her best career moment, Brief biography, highlights of her successes, images from her career, Personal commentary on her own career and pointers for younger scientists building careers. This book provides novelty, inspiration, motivation and a bright perspective for the next generation of scientists and engineers seeking exciting and fulfilling careers. This book will be invaluable to mentors, professors, students and prospective students in science and engineering, scholars of gender studies and scientific and engineering societies and organizations. Lynnette Madsen has done a great service in writing this book not just for women but for society at large because in the twenty-first century we can no longer underutilize or ignore that half of the best. Rita Colwell, Director, United States National Science Foundation, 1998-2004. Distinguished University Professor, University of Maryland College Park and Johns Hopkins Bloomberg School of Public Health. The book shows that opportunities in science exist in many countries around the world. Reading about the ways that took those women to their current positions is an exciting adventure. Yury Gogotsi, Professor, Drexel University. In addition to chronicling careers

of great scientists this book presents an array of career paths to young women and men a must read Dr Rainer Waser Professor Aachen University Germany It is inspiring to see that the successful women highlighted in this work are approaching life with courage and joy they are changing paradigms and serving as voices for young girls They are passionate about making a difference and breaking barriers they are classy and fabulous Dr Olivia Graeve Professor University of California San Diego
