Their blissful state of mind was shattered less than a year after they purchased the property when Hurricane Irma paid an unwelcome visit. The hurricane's horrific damage to their beloved home was only the beginning of their agonies. The tense saga of dealing with a dysfunctional property insurance company was then superseded by the convoluted process for getting their house reconstructed to the current building code. The cliffhanger ending is followed by lessons learned that are beneficial to anyone living in a hurricane-prone area. *Building a Sustainable Home* Melissa Rappaport

Schifman, 2018-08-07 The green building movement has produced hundreds of how-to books and websites that are filled with tips about green building and what homeowners should do to go green. While helpful and informative when it comes to making actual purchasing and installation decisions, these books do not make it any easier for a homeowner to prioritize against a budget. Here, Schifman shares her knowledge and experience for others to use in their journey toward a greener way of living. Whether the reader is building a new home or doing a minor remodel, a homeowner needs a framework by which to guide their decisions. These decisions are based on values, and the author posits that there are really only three reasons to go green: For Our Health, By building more sustainably we reduce our exposure to harmful chemicals and toxins; For Our Wealth, By building a more durable home and being more efficient with resources like water and electricity we reduce our monthly utility bills and ongoing maintenance expenses; For Our Soul, Collectively doing the right thing for our planet does make a difference and that is soul-nourishing. Learn the logistics of choosing windows, insulation, appliances, and lighting. Find out about FSC-certified wood and about using reclaimed materials. Here is everything you need to make your home sustainable. *The Owner-Builder Book: Construction Bargain Strategies*, **Encyclopedia of Data Warehousing and Mining, Second Edition** Wang, John, 2008-08-31
