

Environmental Science Study Guide: Human Population and Demography

Glossary

Students use the glossary to help understand these terms:

- Demography** – The study of human population, how it changes, and why it changes.
- Demographic Transition** – Model explaining growth trends as a country's economy changes.
- Crashling Wave** – The period of the demographic transition, from industrial revolution to modern times.
- Carrying Capacity** – The number of people that a given area can support based on the resources available.
- Global Warming** – The increase in the average temperature of the Earth's atmosphere due to the greenhouse effect.
- Global Warming** – The increase in the average temperature of the Earth's atmosphere due to the greenhouse effect.
- Global Warming** – The increase in the average temperature of the Earth's atmosphere due to the greenhouse effect.
- Global Warming** – The increase in the average temperature of the Earth's atmosphere due to the greenhouse effect.
- Global Warming** – The increase in the average temperature of the Earth's atmosphere due to the greenhouse effect.
- Global Warming** – The increase in the average temperature of the Earth's atmosphere due to the greenhouse effect.
- Global Warming** – The increase in the average temperature of the Earth's atmosphere due to the greenhouse effect.
- Global Warming** – The increase in the average temperature of the Earth's atmosphere due to the greenhouse effect.
- Global Warming** – The increase in the average temperature of the Earth's atmosphere due to the greenhouse effect.
- Global Warming** – The increase in the average temperature of the Earth's atmosphere due to the greenhouse effect.
- Global Warming** – The increase in the average temperature of the Earth's atmosphere due to the greenhouse effect.

Critical Thinking

Students use each analysis to help understand the world as it is and how it is changing.

- Use the following chart to help understand the demographic transition between developed and developing countries.

	Developed Countries	Developing Countries	Global Warming	Demographic Transition	Population Growth
Developed	High birth rates, low death rates, low growth rate.	High birth rates, high death rates, high growth rate.	High birth rates, low death rates, high growth rate.	High birth rates, low death rates, high growth rate.	High birth rates, low death rates, high growth rate.
Developing	High birth rates, high death rates, high growth rate.	High birth rates, low death rates, high growth rate.	High birth rates, low death rates, high growth rate.	High birth rates, low death rates, high growth rate.	High birth rates, low death rates, high growth rate.

- What are the major factors that affect the demographic transition between developed and developing countries?
- What are the major factors that affect the demographic transition between developed and developing countries?
- What are the major factors that affect the demographic transition between developed and developing countries?
- What are the major factors that affect the demographic transition between developed and developing countries?
- What are the major factors that affect the demographic transition between developed and developing countries?
- What are the major factors that affect the demographic transition between developed and developing countries?
- What are the major factors that affect the demographic transition between developed and developing countries?
- What are the major factors that affect the demographic transition between developed and developing countries?
