management practices differ from human resource management practices in the West due to differences in cultural factors economic systems political systems and legal and industrial relations For this reason Ethiopia s culture politics economy and legal and industrial relations have been analyzed The main finding of this study is that the importance of human resource management is not uniformly understood at all the case study companies Although the multinational companies based in Ethiopia see their human resources as the companies most important asset as human capital the local companies generally do not The fact that respondents claim that Ethiopia has limited experience in industrialization might explain why human resource management in Ethiopia is rudimentary and still has a long way to go With this dissertation the researcher wants to contribute to improving Ethiopian human resource management practice Moreover this dissertation may be used as a framework for similar research in other sectors or for more specific in depth research This dissertation may also serve as a knowledge base for company managers business consultants academics and government officials of countries with a national culture similar to Ethiopia s for example Kenya Tanzania and Zambia countries undergoing or which have undergone a recent transition to a free market economy and countries facing similar macro economic developments

Visualizing Physical Geography Timothy Foresman, Alan H. Strahler, 2012-01-11 With its unique approach, *Visualizing Physical Geography* 2nd Edition captures the reader's attention and demonstrates why physical geography is relevant to them. It relies heavily on the integration of National Geographic and other visuals with narrative to explore key concepts. New emphasis is placed on environmental issues such as climate change, overpopulation, and deforestation from a geographical perspective.
