Sustainability Jason Goulah,John Katunich,2020-05-14 In the burgeoning field of ecolinguistics little attention has been given to the ways in which English language teaching is and has become implicated in global ecological crises This book begins a dialogue about the opportunities and responsibilities presented to the TESOL field to re orient professional practice in ways that drive cultural change and engender alternate language practices and metaphors Covering a diverse range of topics including anthropogenic climate change habitat loss food insecurity and mass migration chapters argue that such crises require not only technological innovation but also cultural changes in how human beings relate to each other and their environment Arguing that it is incumbent upon the field of English language teaching to reckon with such cultural changes in how and what we teach TESOL and Sustainability addresses the ways in which discourses such as eco pedagogy the critique of neo liberalism non Western philosophy and post humanist thought can and must inform how and what is taught in ESL and EFL classrooms **Resources in Education** ,2000 Navigating Assessment with Linguistically Diverse Learners

Keri-Anne Croce,2017-04-01 This book addresses how to assess and instruct students while also honoring their cultural and linguistic backgrounds Many individuals want to support their multilingual learners but do not have the language skills to work in a bilingual or dual language setting The chapters in this book examine assessment in classrooms where English is the language of instruction yet students are also encouraged to communicate in multiple languages The thesis of this book revolves around the idea that linguistically diverse learners may engage in critical thinking in ways that we may not anticipate Students who are learning in an additional language do not need to catch up Assessment should instead measure the new ways that students are interacting with the world This book helps you discover the many ways to help students develop as critically thinking readers writers and speakers There is a scarcity of research addressing literacy among linguistically diverse learners within math and science The information contained in this book will hopefully advance a dialogue between teachers and linguistically diverse students as they read and write multiple genres together This book also encourages teachers family and community members to come together to form supportive environments where best practices are fostered Some of the questions addressed by this book 1 How do I determine a student s strengths and needs if he or she is not talking in class in any language 2 Do I teach monolingual and multilingual learners to read in similar ways 3 How can I support my students as they read math word problems 4 What do students need to know about the structures of science texts 5 How should we develop math and science literacy assessments 6 Should I have specific language goals for students as speakers **Teaching ESL Composition** Jane B. Hughey,1983 **The Storm** Ivor van Heerden,Mike Bryan,2006-05-18

The ultimate inside story of the Katrina tragedy from the cofounder of the LSU Hurricane Center After warning for years about the looming threat of catastrophic flooding in New Orleans Ivor van Heerden was one of the highest profile media experts during the Katrina disaster Over the following eighteen months he was even more prominent as he challenged the official version of those events and campaigned for an engineering plan that would protect all of southeastern Louisiana once and for all In *The Storm* van Heerden lays out in full detail the stunning incompetence among the bureaucrats the politicians and the Army Corps of Engineers that culminated in the catastrophe that crippled perhaps forever a great American city

Hollywood or History Scott L. Roberts, Charles J. Elfer, 2018-07-01 Teaching and learning through Hollywood or commercial film productions is anything but a new approach and has been something of a mainstay in the classroom for nearly a century Purposeful and effective instruction through film however is not problem free and there are many challenges that accompany classroom applications of Hollywood motion pictures In response to the problems and possibilities associated with teaching through film we have collaboratively developed a collection of practical classroom ready lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their

classrooms We believe that film can serve as a powerful tool in the social studies classroom and where appropriately utilized foster critical thinking and civic mindedness The College Career and Civic Life C3 framework represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking reading and writing We believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute Our hope is that this edited book might play a small role in the larger project of supporting practitioners specifically K 12 teachers of United States history by offering a collection of classroom ready tools based on the Hollywood or History strategy and designed to foster historical inquiry through the careful use of historically themed motion pictures The book consists of K 5 and 6 12 lesson plans addressing the following historical eras Adapted from UCLA National Center for History in Schools
