Manual For 2003 Z4:

BMW Z4 David Lightfoot, 2004 *BMW Z4 Design Development and Production* is the story of the creation of the Z4 from the first concept in the summer of 1998 until the delivery of customer cars in October 2002. David Lightfoot had exclusive access to the designers, engineers, and production personnel involved in the Z4 and provides an exciting behind-the-scenes look into the process. Never before has the story been told of how BMW brings together creative people and world-renowned technical resources to deliver dream machines to its devoted clientele. David Lightfoot is a BMW enthusiast of the first order. He writes for *Roundel*, the publication of the BMW Car Club of America, on topics ranging from BMW history to future products and development. A particular interest is high performance driving; he has been an instructor with his local BMW Club for more than 20 years. The irony of his driving style and his last name have been brought to his attention many times. He is a lifelong resident of Seattle, Washington. This is his first book. BMW, that most performance-oriented of car companies, had no affordable sports roadster in its line-up before 1995. Stung into action by Mazda's revival of the classic two-seater roadster, the German company quickly staked its claim with the Z3, a classic long-nose short-tail design that used existing BMW mechanical hardware to good effect. This new book tells the story of BMW's Z3 and Z4 two-seater roadsters and coupés, which since 1995 have been at the forefront of the affordable sports car market. The history of the Z3 and both generations of Z4 are covered, as well as full specifications of all models, the formidable M Power derivatives, and a guide to buying and owning. The book is profusely illustrated with over 200 colour photographs and diagrams. **The Car Book 2004** Jack Gillis, 2003. **Out**, 2004-09. *Out* is a fashion style, celebrity, and opinion magazine for the modern gay man.
