Managing Water Under Uncertainty and Risk Unesco,2012 This flagship report is a comprehensive review that gives an overall picture of the world s freshwater resources It analyses pressures from decisions that drive demand for water and affect its availability It offers tools and response options to help leaders in government the private sector and civil society address current and future challenges It suggests ways in which institutions can be reformed and their behaviour modified and explores possible sources of financing for the urgently needed investment in water The WWDR4 is a milestone within the WWDR series reporting directly on regions and highlighting hotspots and it has been mainstreamed for gender equality It introduces a thematic approach Managing Water under Uncertainty and Risk in the context of a world which is changing faster than ever in often unforeseeable ways with
