Mt Kenya 2015 Admissions:

Kenya's 2013 General Election Njogu, Kimani, Wekesa, Peter Wafula, 2017-08-09 When voters enthusiastically turn up to cast their vote during general elections they expect that their action would meaningfully change their lives But in most of Africa even when elections are held on a regular basis voters are quite often disappointed by the performance of their leaders who use the new positions as an opportunity to loot public resources and consolidate power It is almost as if elections are of minimal value to the populace Notwithstanding this trend when they are free and fair general elections can be transformative They can bring into the political arena men and women of integrity committed to service and accountability Inspired by the determination to have inclusive governance and the advancement of democracy Kenya's 2013 General Election Stakes Practices and Outcomes asks important questions related to political participation coalition building politics of identity the international criminal court electoral systems and institutions and the judiciary The papers are written by mainly Kenyan academics and civil society actors who examine the drivers of the 2013 general elections and the sources of the mandate to lead This book is part of publications by Twaweza Communications on democratic practice and accountable governance in Kenya Negotiating Identities in Contemporary Africa Toyin Falola, Emmanuel M. Mbah, 2023-08-29 *Negotiating Identities in Contemporary Africa* Gender Religion and Ethno cultural Identities explores the changing dynamics of identities in Africa with a focus on gender ethno cultural and religious identity Toyin Falola and Emmanuel M Mbah argue that because identity defines who we are as individuals or groups studies on African identities must focus on understanding the changing dynamics in the socio economic and political spheres in the continent These chapters cover subjects such as women's career identity gender roles and knowledge childlessness ethnocentrism and democracy cultural identity through theater Black identity in the diaspora and diasporic consciousness Using existing scholarship the chapters in this edited volume challenge our understanding of what identity entails and provide new discussions on the hitherto politicized historiography of some identities in Africa **Institutional Engineering and Hybrid Power-sharing in Divided Societies** Krzysztof Trzciński, 2024-08-12 Many societies are strongly divided especially in ethnic religious racial and ideological terms Such divisions are usually related to the existence of divergent interests that may lead to serious conflicts between groups and or between them and state authorities In order to limit them participation in decision making processes by members of different groups is needed However it is extremely difficult to establish and maintain effective power sharing arrangements This book examines the cases of Indonesia Nigeria Kenya and Burundi where hybrid models of power sharing have emerged combining specific elements of consociational and centripetal types It also explains the specificity life cycle and performance of different hybrid systems *The contribution of biodiversity for food and agriculture to the resilience of production systems* Food and Agriculture Organization of the United Nations, 2019-06-24 This study reviews the available information on the contribution of biodiversity for food and agriculture to the resilience of crop livestock forest fishery and

Admissions to Peterhouse E. Ansell,2015-10-15 Originally published in 1939 this book presents a register of admissions to Peterhouse College Cambridge during the period October 1911 to December 1930 The text consists of abstracts from the College Historical Registers supplemented by information from other sources A detailed introduction is also provided together with information on Masters and Fellows elected to the College during the period October 1911 to December 1938 This book will be of value to anyone with an interest in the history of Peterhouse and Cambridge University Plant Diversity Patterns and Drivers Qing Zhang,Gang Feng ,Jinliang Liu,2024-09-20 Biodiversity can provide a series of important ecosystem functions and ecosystem services which meet the needs of human beings Plants are the biological group with the highest carbon content on earth their diversity has attracted increased attention The interpretation of plant diversity patterns and drivers is crucial for the conservation and utilization of plant resources and is also one of the hot topics in plant science and ecology There are already many studies on the patterns and drivers of plant diversity including different diversity dimensions e g taxonomic phylogenetic and functional diversity and spatial scales different plots sites watershed country continent and globe The mechanisms underlying plant diversity patterns are also quite complex For example many hypotheses are related to contemporary climate and soil conditions with temperature precipitation and soil nutrient being the most discussed drivers In addition paleoclimate and geological events may also have a strong legacy on current plant diversity patterns Except for these natural factors many anthropogenic activities including agriculture deforestation grazing

urbanization and coal mining are also important drivers of plant diversity. These anthropogenic activities can affect plant diversity patterns not only directly but also indirectly through their effects on habitat loss and habitat fragmentation. Therefore the current plant diversity patterns are the result of many interacting factors and need to be interpreted from a more comprehensive perspective. This Research Topic will therefore provide a platform for sufficient communication aiming to integrate the research from different fields and deepen the understanding of the patterns and drivers of plant diversity. We encourage the submission of theoretical and experimental studies on different plant groups such as seed plants, ferns, mosses and algae. Studies based on new methods and technology such as genomics and drones are also welcomed. We welcome the following specific topics: Effects of historical factors such as paleoclimate geological events on plant diversity; Plant diversity that driven by contemporary climate and anthropogenic activities; The effect of habitat loss and fragmentation on plant diversity; New methods of research on the patterns and drivers of plant diversity.

Handbook of Research on Nurturing Industrial Economy for Africa's Development Nafukho, Frederick Muya, Boniface Makulilo, Alexander, 2021-03-19. A robust manufacturing sector is a necessity and a sufficient condition for any country's human and economic development as it creates employment and alleviates poverty. During this Fourth Industrial Revolution era, there is an urgent need in Africa to optimally utilize the existing resources to support manufacturing or else risk allowing the continent to fall behind in the industrial economy. Innovative strategies are needed that can unlock Africa's manufacturing potential by exploring key areas that may help Africa mature and launch modernized economies that will benefit the developed world's industrial economy. The Handbook of Research on Nurturing Industrial Economy for Africa's Development examines various innovations necessary for Africa's economic development including drivers of the manufacturing economy such as education, agriculture, human capital, science and technological innovations, language, politics and business environments. The book explores strategies to increase Africa's economic diversity, complexity, productivity and ultimately competitiveness and for the continent to realize its manufacturing industrial potential. Further chapters focus on African countries' industrial economies in the African context and facilitating the fulfillment of the Sustainable Development Goals (SDGs) and the African Union's Agenda 2063. This book is a valuable reference tool for

government officials economists industrialists practitioners stakeholders researchers academicians and students interested in the industrial economic development of Africa
