*War of the Words* Craig R. Myers, 2006-10-27 Journalists should avoid cliches but they are just too useful A picture is worth 1 000 words and in the case of the 38 Gulf Breeze UFO photos shot by Ed Walters in 1987 1988 millions of them weird angry hilarious and profound words Words by Dave Barry Mike Royko and Fox Mulder Words on Unsolved Mysteries and Oprah With the 20th anniversary approaching I think about another cliché with a twist Truth is funnier than fiction As a reporter in Pensacola Fla I found myself in a War of the Words TV networks flocked to town Believers and Debunkers battled over Ghost Demon photos and Army deserters arrived in search of the Second Coming With the mayor and police chief on one side and community leaders and the local paper on the other I went looking for the last word on the subject I found a spaceship REVIEW Millions of Americans believe that we are regularly visited by beings from outside the Earth and many are sure they have seen UFOs and even see them regularly Craig R Myers has not only seen one but he has held it in his hand This was in Florida in the middle of the famous Gulf Breeze UFO mania of twenty years ago and the UFO which he had himself captured was of distinctly terrestrial origin but it had been made by the hoaxer who had sparked the Gulf Breeze sightings There are plenty of books to tell you where UFOs come from how we can invite more of them and what to do when one captures you War of the Words The True but Strange Story of the Gulf Breeze UFO Xlibris probably won't match sales of many of those other books but it is shocking and revelatory in its own way It is impossible to argue of course that since this episode was a hoax all UFO sightings are hoaxes and those who sight them are being fooled but Myers has given a story with a skeptical bent that indicates the most useful

way to regard such phenomena It is a funny book it even includes Dave Barry's amusing column about his own visit to Gulf Breeze and his investigation of the mania It is however a serious report by a journalist who covered the story at the time skeptics ought to enjoy it and True Believers ought to learn from it Woodward and Bernstein got the story of their lifetimes because they happened to be in the right place and time Not every journalist's story of a lifetime has such national implications but Myers is grateful that he was around for what he calls the most interesting frightening and funny story of my at that time short career Maybe this was just in contrast to his usual beat for the Pensacola News Journal where he reported upon what the county commissioners and the utility authority were up to A rival paper The Gulf Breeze Sentinel published anonymously submitted photographs of a UFO in November 1987 but they were not the first UFOs seen in the area Gulf Breeze is directly in the flight path of an airport and is near a naval air station and an Air Force base so that there are plenty of lights in the sky In such a locale if you are of a mind to be fooled by a mysterious light says Myers it is quite simple to let yourself think that this is something besides an earthly craft Indeed on any clear night the Gulf Breeze Research Team might be out doing what it called a Skywatch excitedly whispering to each other Do you see that one So some Sentinel readers were already primed when the paper published a picture of a classic flying saucer Myers says there are two ways a paper can report on UFOs One is to report on the broad phenomenon of UFO sightings and the other is to report UFO sightings as frequently and with as little confirmation and editing as it publishes engagements weddings births Optimist Club donations honor rolls obits and arrests He does not crow too much that his Journal chose the former while the Sentinel chose the la

Gragg, 2010 This book describes the extraterrestrials ETs physical appearance and mental capabilities This includes an excellent photograph of an ET It gives details of their human alien hybrid breeding program It gives some guidance on recognizing hybrids who are trying to pass as humans It describes in some detail 13 of the 57 known types of ETs This includes the discovery of two new types the Super Giants and the Minigrays It includes four generations of Mayans and their interaction with the ETs It includes one generation of Mayans channeling to the next generation about a cataclysmic future event It gives details of the treaty between President Eisenhower and the ETs

**Scientific Americans** Sharon A. Hill, 2017-12-22 In the 21st century reality television and the Internet have fed public interest in ghosts UFOs cryptozoology and other unusual phenomena By 2010 roughly 2000 amateur research and investigation groups formed in the U S ghost hunters Bigfoot chasers and UFO researchers using an array of supposedly scientific equipment and methods to prove the existence of the paranormal American culture's honorific regard for science coupled with the public's unfamiliarity with scientific methods created a niche for self-styled paranormal experts to achieve national renown without scientific training or credentials The author provides a comprehensive examination of the ideas missions and methods promoted by these passionate amateurs

**Mountain Mysteries** Larry D. Thacker, 2006-11 A near obsessive pursuit of ghost stories and odd superstitions cranks up this serious study of Appalachian tales of the

supernatural and their origin in both old world customs and real historical events An effort to preserve and record one aspect of a dying way of life the book relies on interviews and historic documents to search for the facts behind local lore of murder witchcraft and weird hauntings Several campfire worthy ghost stories are recounted in their entirety including The Swinging Gate of Fern Lake Hollow and an unexpectedly large number of stories about aliens and UFOs provide an interesting comparison of three century old mysteries and those stirred up in comparatively recent times [Catalog of Copyright](#)

Kind Mezrich writes vividly and grippingly A terrific story that will make a heck of a movie The Washington Post Here is the fascinating Publishers Weekly true story of a computer programmer who tracks paranormal events in remote areas of the western United States and is drawn deeper and deeper into a mysterious conspiracy Like Agent Mulder of The X Files microchip engineer and sheriff s deputy Chuck Zukowski is obsessed with tracking down UFO reports in Colorado He even takes the family with him on weekend trips to look for evidence of aliens But this innocent hobby takes on a sinister urgency when Zukowski learns of mutilated livestock whose exsanguination is inexplicable by any known human or animal means Along an expanse of land stretching across the southern borders of Utah Colorado and Kansas Zukowski documents

hundreds of bizarre incidences of mutilations and discovers that they stretch through the heart of America His pursuit of the truth draws him deeper into a vast conspiracy and he journeys from Roswell and Area 51 to the Pentagon and beyond from underground secret military caverns to Native American sacred sites and to wilderness areas where strange unexplained lights traverse the sky at extraordinary speeds Inspiring and terrifying Mezrich s dramatic narrative connects dots we didn t even know existed Something s clearly happening out there in the high meadows and along desert highways Kirkus Reviews The 37th Parallel will make you too wonder if we are really alone
