Language Awareness in Multilingual Classrooms in Europe Christine Hélot, Carolien Frijns, Koen Gorp, Sven Sierens, 2018-04-23 Within the scope of today's globalisation linguistic diversity is a given fact of the world we live in In several educational contexts in Europe language awareness LA activities have been introduced with the objective to prepare pupils cognitively socially and or critically for life as multilingual open minded and or empowered citizens in a diverse world Despite previous research in various contexts the concept of LA remains problematic a generally accepted evidence based conceptualisation is missing This confronts both research and education with a challenge in order to develop LA activities implement them successfully in educational contexts and achieve the expected outcomes we should know what the concept stands for how it works and why we would

choose to implement it in classrooms or not This volume focuses on three apparent simple questions what how and why The first question what refers to the concept ual mess of LA The second question how refers to the implementation of LA activities in several educational contexts The third question why is a recurrent theme running through all the chapters and deals with a reflection on the way we deal un consciously with LA activities in education *The Invention of Multilingualism* David Gramling,2021-06-17 Multilingualism is a meaningful and capacious idea about human meaning making practice one with a promising tumultuous and flawed present and a future worth caring for in research and public life In this book David Gramling presents original new insights into the topical subject of multilingualism describing its powerful social economic and political discourses On one hand it is under acute pressure to bear the demands of new global supply chains profit margins and supranational unions and on the other it is under pressure to make way for what some consider to be better descriptors of linguistic practice such as translanguaging The book shows how multilingualism is usefully able to encompass complex divergent and sometimes opposing experiences and ideas in a wide array of planetary contexts fictitious and real political and social North and South colonial and decolonial individual and collective oppressive and liberatory embodied and prosthetic present and past *The Economics of Language Policy* Michele Gazzola,Bengt-Arne Wickstrom,2016-09-23 Insights from the application of economic theories and research methods to the management of linguistic diversity in an era of globalization In an era of globalization issues of language diversity have economic and political implications Transnational labor mobility trade social inclusion of migrants democracy in multilingual countries and companies international competitiveness all have a linguistic dimension yet economists in general do not include language as a variable in their research This volume demonstrates that the application of rigorous economic theories and research methods to issues of language policy yields valuable insights The contributors offer both theoretical and empirical analyses of such topics as the impact of language diversity on economic outcomes the distributive effects of policy regarding official languages the individual welfare consequences of bilingualism and the link between language and national identity Their research is based on data from countries including Canada India Kazakhstan and Indonesia and from the regions of Central America Europe and Sub Saharan Africa Theoretical models are explained intuitively for the nonspecialist The relationships among linguistic variables inequality and the economy are approached from different perspectives including economics sociolinguistics and political science For this reason the book offers a substantive contribution to interdisciplinary work on languages in society and language policy proposing a common framework for a shared research area Contributors Alisher Aldashev Katalin Buz si Ramon Caminal Alexander M Danzer Maxime Leblanc Desgagn Peter H Egger Ainhua Aparicio Fenoll Michele Gazzola Victor Ginsburgh Gilles Grenier Fran ois Grin Zoe Kuehn Andrea Lassmann Stephen May Serge Nadeau Suzanne Romaine Selma K Sonntag Stefan Sperlich Jos Ram n Uriarte Fran ois Vaillancourt Shlomo Weber Bengt Arne Wickstr m Lauren Zentz
