

Monday August 31st - The Necklace - Finding Meaning

I think there is a difference between an original object and a forgery. The original object holds far more value as it was created only one time and can never, and will never, be created again. A forgery can be equally as beautiful because it was recreated from the original however it doesn't hold the same value and aspects. Everytime this topic is brought up I think of the Mona Lisa. Nothing can hold the same monetary or sentimental value as the original. It provides an experience you cannot receive from a print. They don't guard the forgery copies. It may not be aesthetically different to a commoners eye however it is different.

- ① The story is implying that there really isn't a difference between forgery and originals because when she got the necklace she didn't even know it was fake, nor when she gave back ~~a~~ real one. "They were very like" implying there was no visible difference.
