## English Paper September 2013 Memo:

**E.P. Thompson and the Making of the New Left** E. P. P. Thompson, 2014-07-18 E P Thompson is a towering figure in the field of labor history best known for his monumental and path breaking work *The Making of the English Working Class*. But as this collection shows Thompson was much more than a historian he was a dedicated educator of workers a brilliant polemicist a skilled political theorist and a tireless agitator for peace against nuclear weapons and for a rebirth of the socialist project. The essays in this book many of which are either out of print or difficult to obtain were written between 1955 and 1963 during one of the most fertile periods of Thompson's intellectual and political life when he wrote his two great works *The Making of the English Working Class* and *William Morris Romantic to Revolutionary*. They reveal Thompson's insistence on the vitality of a humanistic and democratic socialism along with the value of utopian thinking in radical politics. Throughout Thompson struggles to open a space independent of official Communist Parties and reformist Social Democratic Parties opposing them with a vision of socialism built from the bottom up. Editor Cal Winslow who studied with Thompson provides context for the essays in a detailed introduction and reminds us why this eloquent and inspiring voice remains so relevant to us today.

**The Politics of Coercion** Neil Loughlin,2024-09-15 In The Politics of Coercion Neil Loughlin explains the persistence of Cambodia s authoritarian regime for more than four decades It provides a historically grounded investigation of the country s ruling coalition political elites many drawn from within the state s coercive apparatus who in coordination with state dependent tycoons have come to control Cambodia s politics and its economy Loughlin presents new empirical data foregrounding the coercive underpinnings of the modern Cambodian state

and its party the Cambodian People's Party CPP. The focus on coercion reflects the regime's conflict and postconflict evolution and extractive political economy as the ruling coalition failed to channel popular interests through its political institutions thus resorting either to low intensity forms of coercion such as intimidation and surveillance or to high intensity coercion such as violent crackdowns and extrajudicial killings. Through a critical reevaluation of the regime's origins and evolution in its relationship with citizens, *The Politics of Coercion* reconceptualizes the CPP to emphasize the obstacles structural, institutional and distributional to building a mass based clientelist or developmentally legitimate authoritarian party.
