accent

This word is used (rather confusingly) in two different senses: (1) accent may refer to [prominence](#) given to a [syllable](#), usually by the use of [pitch](#). For example, in the word 'potato' the middle syllable is the most prominent; if you say the word on its own you will probably produce a fall in pitch on the middle syllable, making that syllable accented. In this sense, *accent* is distinguished from the more general term [stress](#), which is more often used to refer to all sorts of prominence (including prominence resulting from increased [loudness](#), [length](#) or sound quality), or to refer to the effort made by the speaker in producing a stressed syllable. (2) accent also refers to a particular way of pronouncing: for example, you might find a number of English speakers who all share the same grammar and vocabulary, but pronounce what they say with different accents such as Scots or Cockney, or [BBC pronunciation](#). The word

English Phonetics And Phonology Glossary
