The Crusades Alan V. Murray, 2006-08-30 The first multivolume encyclopedia to document the history of one of the most influential religious movements of the Middle Ages the Crusades. The Crusades: An Encyclopedia surveys all aspects of the crusading movement from its origins in the 11th century to its decline in the 16th century. Unlike other works which focus on the eastern Mediterranean region, this expansive four volume encyclopedia also includes the struggle of Christendom against its enemies in Iberia, Eastern Europe and the Baltic region, and also covers the military orders, crusades against fellow Christians, heretics and more. This work includes comprehensive entries on personalities such as Godfrey of Bouillon who refused the title King of Jerusalem and St Bernard of Clairvaux who tore up his own clothing to make symbols of the cross for crusaders, as well as key events, countries, places and themes that shed light on everything from the propaganda that inspired crusading warriors to the ways in which they fought. Special coverage of topics such as taxation, pilgrimage, warfare, chivalry and religious orders give readers an appreciation of the multifaceted nature of these holy wars.     **The Mercantile Navy List and Maritime Directory** Great Britain.
