TEXTBOOK OF NURSING EDUCATION Dr. Sudhir Kumar Khuntia, Dr. Ann Maria Thomas, Prof. J.M. Silja, Dr.

Vasanthakumari Sundararajan, Prof. Dr. Shalini Abraham, 2024-04-11 I would like to dedicate this unit 1 Introduction to Education in memory of our great Indian Leader philosopher great Scientist India's pride Bharat Ratna the Missile Man of India Dr Abdul Kalam. Despite the range of titles he had earned in his lifetime, the visionary preferred to call himself A Teacher. Abdul Kalam he is the only president who has a lot of love for children and feels that the future of India lies in them. According to Dr APJ Abdul Kalam, the purpose of education is to make good human beings with skill and expertise. He was a source of inspirations for thousands of people across the world because of his philosophy and teachings. His ideas and considerations on education and empowering country are outstanding. He said all of us do not have equal talent. But all of us have equal opportunity to develop our talent. He emphasized that education is a pillar of a developed and a powerful country besides the most important element for growth and prosperity of a nation. Academic Journal: Editing and Publishing Radhakrishnan Nair, 2017-11-29 World University rankings were announced by Thomas Reuters and The Times. As an Indian besides being one teaching for nearly five decades, I was eager to know the results of the announcement. I showed enough concern. Where have our good Indian universities, higher educational institutions been placed? I set my eyes on top ranks and it didn't give me anything to be proud of. My eyes crossed over more than two hundred and fifty names of universities of the world including those of some not so developed countries. But I came across no name of Indian institutions, universities. This upsets me. What made the Indian educational scenario virtually get eclipsed by the scenarios of the rest of the world? I drew a comparison between the higher education in India with that of many other countries. The World Education scene in general occupied a higher level of degree in research and publication than that of the Indian Education scene. Research flourishes when research is brought to light through publication. I always advocate sound growth in Indian Education. This can be achieved if we improve journal publication. This awareness has resulted in this book. Therefore, Journal Publishing is a Cultural Imperative. This book is designed to help readers understand what a journal is, the people who are responsible for the creation and production of this journal, how a journal is published, where a journal flourishes, and why it is mandatory in education development. I have taken materials from all over the world and all these sources have been acknowledged in the references, but for them, this book would not have been a reality. *Making Futures Work* Phil Balagtas, 2024-06-05 Learn how to get started with Futures Thinking.
