

Autobiography

My name is Michael Smith and I was born on the 30th of August, 1967 in Long Beach, California. My parents were Eddie Smith and Joan Smith. Both of my parents are deceased. My mom died at the age of 57 in 1994 from lung cancer which was the result of smoking her whole lifetime. My father died at the age of 69 in 2006 from a massive heart attack, which was also the likely result from a lifetime of smoking. Fortunately I have been smart enough to avoid that bad habit.

My early childhood was a typical middle class environment circa the 1960's. My dad worked for Simpson Buick as a parts salesman and my mom was a stay at home mother. I had a happy, normal childhood as an only child, leaving me somewhat spoiled. My mom and dad divorced when I was eight years old and both remarried within a year or so of the divorce. My dad remained married to my stepmom Bev until his death. My mom would marry two more times. My first stepdad Vince became a big part of my life and I maintained close contact with him until his death in 2006, two days after my real dad died. Yes, that was a very bad week, losing both of my dads.

Growing up with split parents was not especially difficult since each of my parents kept me out of their divorce and they got along fine at events where both of them were present. I lived with my mom until I was 16 and in high school. By my sophomore year in high school I had begun to hang around with friends that got me into a lot of trouble with a number of things including smoking pot and drinking. I was rapidly heading down a negative path, but was fortunate enough to notice it before I had done any serious damage. I moved in with my dad and changed high schools and friends.

Penn Warren, Shadowy Autobiography, and Other Makers of American Literature Joseph R. Millichap,2023-08-18 Toward the end of his career Robert Penn Warren wrote It may be said that our lives are our own supreme fiction Although lauded for his writing in multiple genres Warren never wrote an autobiography Instead he created his own shadowy autobiography in his poetry and prose as well as his fiction and nonfiction As one of the most thoughtful scholars on Robert Penn Warren and the literature of the South Joseph Millichap builds on the accepted idea that Warren s poetry and fiction became more autobiographical in his later years by demonstrating that that same progression is replicated in Warren s literary criticism This meticulously researched study reexamines in particular Warren s later nonfiction in which autobiographical concerns come into play that is in those fraught with psychological crisis such as Democracy and Poetry Millichap reveals the interrelated literary genres of autobiography criticism and poetry as psychological modes encompassing the interplay of Warren s life and work in his later nonfiction He also shows how Warren s critical engagement with major American authors often centered on the ways their creative work intersected with their lives thus generating both autobiographical criticism and the working out of Warren s own autobiography under these influences Millichap s latest book focuses on Warren s critical responses to William Faulkner John Crowe Ransom Herman Melville Nathaniel Hawthorne John Greenleaf Whittier and Theodore Dreiser In addition the author carefully considers the black and female writers Warren assessed more briefly in American Literature The Makers and the Making Robert Penn Warren Shadowy Autobiography and Other Makers of American Literature presents the breadth of Millichap s scholarship the depth of his insight and the maturity of his judgment by giving us to understand that in his writing Robert Penn Warren came to know his own vocation as a poet and critic and as an American **The Autobiography of an Unknown Indian** Nirad C. [With Plates, Including Portraits.]** John Britton,1850 *The Absent-minded Imperialists* Bernard Porter,2004 The British empire was a huge enterprise To foreigners it more or less defined Britain in the nineteenth and early twentieth centuries Its repercussions in the wider world are still with us today It also had a great impact on Britain herself for example on her economy security population and eating habits One might expect this to have been reflected in her society and culture Indeed this has now become the conventional wisdom that Britain was steeped in imperialism domestically which affected or infected almost everything Britons thought felt and did This is the first book to examine this assumption critically against the broader background of contemporary British society Bernard Porter a leading imperial historian argues that the empire had a far lower profile in Britain than it did abroad Many Britons could hardly have been aware of it for most of the nineteenth century and only a small number was in any way committed to it Between these extremes opinions differed widely over what was even meant by the empire This depended largely on class and even when people were aware of the empire it had no appreciable impact on their thinking about anything else Indeed the influence far more often went the other way with perceptions of the empire being affected or distorted by more powerful domestic discourses Although Britain was an imperial nation in this period she was never a genuine imperial society As well as showing how this was possible Porter also discusses the implications of this attitude for Britain and her empire and for the relationship between culture and imperialism more generally bringing his study up to date by including the case of the present day USA **The Real West Marginal Way: A Poet's Autobiography** Richard Hugo,1992-06-17 Of Richard Hugo's Making Certain It Goes On David Wagoner has written Richard Hugo spared himself and us no pains or joys in making the wonderful vigorous original poems brought together in this single collection His was and is a very important voice in modern American poetry Hugo was also an editor of the Yale Younger Poets series and a distinguished teacher and master of the personal essay Now many of his essays have been assembled and arranged by Ripley Hugo the poet's widow and a writer and teacher and Lois and James Welch writers and close friends of the poet Together the essays constitute a compelling autobiographical narrative that takes Hugo from his lonely childhood through the war years and his working and creative life to an interview just before his death in 1982 William Matthews also a friend of Hugo's has written an introduction

Twofold Identities Øyvind Tveitereid Gulliksen,2004 *Twofold Identities* is a study of Midwestern American literature as well as of Norwegian American immigrant texts Many readers have judged the latter to be a mere reflection of immigrant

experience a judgment that is neither fair nor correct These American writers were forced to confront an essentially modern experience complicated by the contextual duality of bilingualism For early Midwestern immigrant writers and their readers the task of homemaking in a new setting was a philosophically challenging and highly problematic endeavor These Midwestern writers were not lost divided nor rootless They had the unique privileged ability to draw on the resources of two worlds As writers they enjoyed and helped to strengthen twofold identities

The Autobiographical Documentary in America Jim Lane, 2002-04-29 Since the late 1960s American film and video makers of all genres have been fascinated with themes of self and identity Though the documentary form is most often used to capture the lives of others Jim Lane turns his lens on those media makers who document their own lives and identities He looks at the ways in which autobiographical documentaries including *Roger and Me* *Sherman's March* and *Silverlake Life* raise weighty questions about American cultural life What is the role of women in society What does it mean to die from AIDS How do race and class play out in our personal lives What does it mean to be a member of a family Examining the history diversity and theoretical underpinnings of this increasingly popular documentary form Lane tracks a fundamental transformation of notions of both autobiography and documentary

Theory That Matters Kacper

Bartczak, Małgorzata Myk, 2014-08-11 Covering an impressive scope of subjects in literary and cultural theory from Freud Heidegger and Barthes to Fish Rorty and Bhabha *Theory That Matters* offers a welcome up to date assessment of the state of the discipline Such a recapitulation serves as a point of departure for the examinations of the new practices across the arts and media and of the innovative interpretative tools suggested by these practices The contributors take their examples from an amazing variety of contexts and thus prove that the very dynamics of theory is a fascinating phenomenon Succeeding several recent anthologies that have cast doubt on the aims of theory the present volume launches its defence and at the same time demonstrates that this is not to be achieved at the expense of praxis The book clearly shows that theory owes its currency to its multiple functions among others as a procedure of interpretation a vehicle for philosophical reflection and a formulation of an ideological stance Marek Paryz Associate Professor Institute of English Studies University of Warsaw Editor of the Polish Journal for American Studies **Walter Isaacson Great Innovators e-book boxed set** Walter
