

A black and white portrait of Oscar Wilde. He is shown from the chest up, wearing a dark, fur-trimmed coat over a white shirt and a dark cravat. He has long, dark, wavy hair and is looking directly at the camera with a slight smile. His right hand is resting on his chin, and his left hand is holding a rolled-up document or scroll. The background is a plain, light color.

Ralph Waldo Emerson: Essays and Lectures (LOA #15) Ralph Waldo Emerson, 1983-11-15 Our most eloquent champion of individualism Emerson acknowledges at the same time the countervailing pressures of society in American life Even as he extols what he called the great and crescive self he dramatizes and records its vicissitudes Here are all the indispensable and most renowned works including The American Scholar our intellectual Declaration of Independence as Oliver Wendell Holmes called it The Divinity School Address considered atheistic by many of his listeners the summons to Self Reliance along with the more embattled realizations of Circles and especially Experience Here too are his wide ranging portraits of Montaigne Shakespeare and other representative men and his astute observations on the habits lives and prospects of the English and American people This volume includes Emerson's well known Nature Addresses and Lectures 1849 his Essays First Series 1841 and Essays Second Series 1844 plus Representative Men 1850 English Traits 1856 and his later book of essays The Conduct of Life 1860 These are the works that established Emerson's colossal reputation in America and found him admirers abroad as diverse as Carlyle Nietzsche and Proust The reasons for Emerson's influence and durability will be obvious to any reader who follows the exhilarating exploratory movements of his mind in this uniquely full gathering of his work Not merely another selection of his essays this volume includes all his major books in their rich entirety No other volume conveys so comprehensively the exhilaration and exploratory energy of perhaps America's greatest writer LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing and keeping permanently in print America's best and most significant writing The Library of America series includes more than 300 volumes to date authoritative editions that average 1 000 pages in length feature cloth covers sewn bindings and ribbon markers and are printed on premium acid free paper that will last for centuries The Selected Lectures of Ralph Waldo Emerson Ralph Waldo Emerson, 2005 This is the first and only comprehensive selection of lectures by Ralph Waldo Emerson his era's most prominent American man of letters and one of the foremost architects of our intellectual culture Based on authoritative texts selected and edited by Ronald A Bosco and Joel Myerson the most experienced Emerson editors working today these twenty five addresses collectively exemplify the lecture style for which Emerson was famed in his day Best known to his contemporaries as a lecturer Emerson delivered some 1 500 addresses over the course of his career Because his most important ideas were worked out in his lectures they provide the best record we have of his evolving thought and thus are a key to our understanding of his essays and other printed works Gathered here are lectures on American culture literary theory and aesthetics moral and as Emerson called it intellectual philosophy and social and political reform They are taken from speaking engagements in the United States and the British Isles over the period 1833 1871 during which Emerson often spent four to six months a year on the lecture circuit lectures from the earliest years of Emerson's career 1833 1842 have been newly edited for this volume The volume's introduction draws on contemporary

accounts to describe Emerson's idiosyncratic but utterly memorable manner of speaking. A headnote provides context to the composition and delivery of each lecture and footnotes identify Emerson's allusions to persons, places, occasions, quotations, and books. By examining his lectures and how they were delivered, say, in the case of Ralph Waldo Emerson, we can look into the laboratory of Emerson's intellectual and compositional process and see his published writings gestating.
