Modern Spectral Estimation Steven M. Kay, 1988 **Manual de computação evolutiva e metaheurística** António Gaspar-Cunha, Ricardo Takahashi, Carlos Henggeler Antunes, 2012-06-01 As técnicas computacionais que são hoje denominadas por Computação Evolutiva e por Metaheurísticas se desenvolveram de maneira relativamente independente durante os últimos 40 anos do século XX no seio de duas comunidades científicas que mantiveram relativamente pouco contato ao longo desse período. Durante esse tempo ambos os conjuntos de técnicas se consolidaram sendo hoje reconhecidos como parte integrante do repertório fundamental de ferramentas da Computação e da Engenharia que possibilitam a síntese de muitos dos sistemas tecnológicos hoje existentes. Apenas no decorrer da última década do século XX se formou nas respectivas comunidades científicas uma consciência das conexões existentes entre esses dois corpos de conhecimento que partilham muitos dos seus princípios e fundamentos. O presente livro foi escrito com o objetivo de constituir uma obra de referência em Língua Portuguesa abrangendo os níveis de graduação e pós-graduação do nosso ensino universitário e político na sequência das edições realizadas da Escola Luso Brasileira de Computação Evolutiva.

Signal Processing for High-density Magnetic Recording Channels Hamid Reza Shafiee, 1994 **Fundamentals of Statistical Signal Processing** Steven M. Kay, 2013 For those involved in the design and implementation of signal processing algorithms this book strikes a balance between highly theoretical expositions and the more practical treatments covering only those approaches necessary for obtaining an optimal estimator and analyzing its performance. Author Steven M. Kay discusses classical estimation followed by Bayesian estimation and illustrates the theory with numerous pedagogical and real world examples. Cover volume 1.

Fundamentals of Statistical Signal Processing Steven Kay, 2013 The Complete Modern Guide to Developing Well Performing Signal Processing Algorithms In Fundamentals of Statistical Signal Processing Volume III Practical Algorithm Development author Steven M. Kay shows how to convert theories of statistical signal processing estimation and detection into software algorithms that can be implemented on digital computers. This final volume of Kay's three volume guide builds on the comprehensive theoretical coverage in the first two volumes. Here Kay helps readers develop strong intuition and expertise in designing well performing algorithms that solve real world problems. Kay begins by reviewing methodologies for developing signal processing algorithms including mathematical modeling, computer simulation and performance evaluation.

He links concepts to practice by presenting useful analytical results and implementations for design evaluation and testing. Next he highlights specific algorithms that have stood the test of time, offers realistic examples from several key application areas, and introduces useful extensions. Finally he guides readers through translating mathematical algorithms into MATLAB code and verifying solutions. Topics covered include: Step by step approach to the design of algorithms; Comparing and choosing signal and noise models; Performance evaluation metrics; tradeoffs; testing and documentation; Optimal approaches using the big theorems; Algorithms for estimation, detection and spectral estimation; Complete case studies: Radar Doppler, center frequency estimation, magnetic signal detection and heart rate monitoring. Exercises are presented throughout with full solutions. This new volume is invaluable to engineers, scientists and advanced students in every discipline that relies on signal processing; researchers will especially appreciate its timely overview of the state of the practical art. Volume III complements Dr Kay's *Fundamentals of Statistical Signal Processing* Volume I: Estimation Theory (Prentice Hall, 1993, ISBN 13 978 0 13 345711 7) and Volume II: Detection Theory (Prentice Hall, 1998, ISBN 13 978 0 13 504135 2). **Subject Guide to Books in Print**, 1984.
