Case Studies in Management and Business (Volume 9) (UUM Press) Hapini Awang, Nur Suhaili Mansor, 2024-06-16 The publication entitled Case Studies in Management and Business encompasses nine case studies exploring real life scenarios. These case studies encompass a wide range of subject matter including tax planning, data management, crisis management, financial planning and strategic decision making. Each case study addresses explicitly the academic disciplines and offers practical applications for students to develop their theoretical knowledge and analytical capabilities. Moreover, these case studies tackle organizations' challenges across various sectors, fostering critical thinking and problem solving abilities. This book suits individuals at different educational levels including undergraduates, postgraduates and those seeking professional development. It provides valuable insights into accounting, information technology, finance and marketing management practices. Consequently, it is an invaluable resource for scholars and practitioners interested in comprehending and resolving intricate business issues.

Case Studies in Management and Business (Volume 4) (UUM Press) Soon Jan Jan, 2018-01-01 This is the fourth volume of the compilation of case studies by UUM's Institute of Management and Business Research (IMBRe). Following the successful publication of its three predecessors, the current Volume 4 selects and includes the best Malaysian case studies in the broad areas of management, economics and marketing. It is IMBRe's aspiration to encourage both academics and students to embrace the case study approach as an effective pedagogical tool. The cases are designed and written by academics to be used for both undergraduate and postgraduate courses in which the academics themselves more often than not serve as instructors. Although each case is written specifically to cater for a particular course, it can be adapted for other related courses.

Case Studies in Project, Program, and Organizational Project Management Dragan Z. Milosevic, Peerasit Patanakul, Sabin Srivannaboon, 2011-08-17 The ever expanding market need for information on how to apply project management principles and the PMBOK contents to day to day business situations has been met by our case studies book by Harold Kerzner. That book was a spin off from and ancillary to his best selling text but has gained a life of its own beyond adopters of that textbook. All indications are that the market is hungry for more cases while our own need to expand the content we control both in print and online would benefit from such an expansion of project management case content. The authors propose to produce a book of cases that compliment Kerzner's book. A book that offers cases beyond the general project management areas and into PMI's growth areas of program management and organizational project management. The book will be structured to follow the PMBOK in coverage so that it can not only be used to supplement project management courses but also for self study and training courses for the PMP Exam. PMI, PMBOK, PMP and Project Management Professional are registered marks of the Project Management Institute Inc.
