Mechanic Shop Femme's Guide to Car Ownership Chaya M. Milchtein, 2024-04-09 A comprehensive guide to car ownership and maintenance intended for anyone regardless of age gender or experience When did you last pick up a book about cars Typically written for men particularly automotive enthusiasts and mechanics these books rarely appeal to the everyday car owner *Mechanic Shop Femme's Guide to Car Ownership* is different Automotive educator journalist and social media influencer Chaya M Milchtein is a queer woman who has spent the last decade deeply entrenched in the automotive industry In a country where economic injustices disproportionately impact marginalized people particularly people of color and the LGBTQ community a reliable car and an excellent relationship with a quality mechanic is vital to climb out of poverty Chaya understands that a vehicle is an economic necessity that can provide access to career opportunities financial security and physical safety She also understands that queer folks and women often find it daunting to buy a car and subsequently deal with the realities of getting it insured and repaired In *Mechanic Shop Femme's Guide to Car Ownership* Chaya speaks to readers of all identities and socio economic backgrounds arming them with the necessary knowledge to navigate the intimidating automotive industry At its core this book is an accessible and comprehensive guide that will put readers at ease by providing them with basic knowledge about car ownership and maintenance From buying a car to getting it insured finding the perfect mechanic and dealing with car emergencies Chaya encourages her audience to make educated decisions regarding their vehicles *Mechanic Shop Femme's Guide to Car Ownership* is a must have one that will last readers through a lifetime of car ownership

The Arrival of the Electric Car CHRIS JOHNSTON, ED SOBEY, 2022-12-29 Second Edition Are you considering buying an electric vehicle All of us are witnessing a once in a lifetime transformation For over one hundred years gasoline and diesel fuels have powered ground transportation throughout the world Now that is changing and 2023 is the year when most people will recognize that change is happening This book is a comprehensive easy to understand overview of the passenger EV universe including guides for buying and owning an electric car The authors discuss choosing owning and driving an electric car then explain the features advantages benefits and limitations of over 45 EV models including pickup trucks SUVs and sedans If you have to have a car make it an electric car As this book makes clear they are better than old fashion vehicles in every way Bill McKibben American environmentalist and climate change authority co founded 350 org and spearheaded the fossil fuel divestment campaign resulting in endowments worth more than 15 trillion stepping back from oil gas and coal Thankfully now that the electric vehicle R D dark ages are coming to an end and automakers around the world are charging up their EV programs there's no doubt that we're about to see massive valuable change in our transportation landscape Sebastian Blanco one of America's leading electric car journalists who has been writing about EVs since 2006

Information and Communications for Development 2018 World Bank, 2018-11-08 The Information and Communications for Development series looks in depth at how information and communications

technologies are affecting economic growth in developing countries This new report the fourth in the series examines the topic of data driven development or how better information makes for better policies The objective is to assist developing country firms and governments in unlocking the value of the data they hold for better service delivery and decision making and to empower individuals to take more control of their personal data We are undoubtedly experiencing a data revolution in which our ability to generate process and utilize information has been magnified many times over by the machines that we increasingly rely upon This report is about how the data revolution is changing the behavior of governments individuals and firms and how these changes affect the nature of development economic social and cultural How can governments extract value from data to improve service delivery in the same way that private companies have learned to do for profit Is it feasible for individuals to take ownership of their own data and to use it to improve their livelihoods and quality of life Can developing country firms compete with the internet majors on their own turf and be even more innovative in their use of data to serve local customers better Though the report is aimed primarily at government policy makers it also has great relevance for individuals concerned about how their personal data is used and how the data revolution might affect their future job prospects For private sector firms particularly those in developing countries the report suggests how they might expand their markets and improve their competitive edge For development professionals the report provides guidance on how they might use data more creatively to tackle long standing global challenges such as eliminating extreme poverty promoting shared prosperity or mitigating the effects of climate change The report s chapters explore different themes associated with the supply of data the technology underlying it and the demand for it An overview chapter focuses on government use of data and presentation of definitions Part I of the report then looks at the supply side of the data sector with chapters on data connectivity and capacity where data comes from how it is stored and where it goes and data technology specifically big data analytics and artificial intelligence and how this is contributing to development Part II looks at the sector s demand side with a chapter on people s use of data and another that examines how firms use digital platforms in the data economy and how that contributes to competitiveness Part III brings together the policy implications for developing country stakeholders with a chapter considering government policies for data including data protection and privacy A closing Data Notes appendix looks at statistical indicators associated with the use of data and presents the 2018 update of the Digital Adoption Index DAI a composite indicator introduced in the 2016 World Development Report Digital Dividends
