Manual of public examinations Sydney univ,1899 *Public Documents of Massachusetts* Massachusetts,1902 Report
State Library of Massachusetts,1902 *Beyond Vanity* Elizabeth L. Block,2024-09-10 From the award winning author of
Dressing Up a riveting and diverse history of women's hair that reestablishes the cultural power of hairdressing in
nineteenth century America In the nineteenth century the complex cultural meaning of hair was not only significant but it
could also impact one's place in society After the Civil War hairdressing was also a growing profession and the hair industry
a mainstay of local national and international commerce In *Beyond Vanity* Elizabeth Block expands the nascent field of hair
studies by restoring women's hair as a cultural site of meaning in the early United States With a special focus on the places
and spaces in which the hair industry operated Block argues that the importance of hair has been overlooked due to its
ephemerality as well as its misguided association with frivolity and triviality As Block clarifies hairdressing was anything but
frivolous Using methods of visual and material culture studies informed by concepts of cultural geography Block identifies
multiple substantive categories of place and space within which hair acted These include the preparatory places of the
bedroom hair salon and enslaved peoples quarters as well as the presentation places of parties fairs stages and workplaces
Here are also the untold stories of business owners many of whom were women of color and the creators of trendsetting
styles like the pompadour and Gibson Girl bouffant Block's ground breaking study examines how race and racism affected
who participated in the presentation and business of hair and according to which standards The result of looking closely at
the places and spaces of hair is a reconfiguration that allows a new understanding of the cultural power of hair in the period
