General Introduction

Standard Motor Products, Inc. Greenville Operations (SMP) is a registered TS-16949 facility. SMP has earned a reputation for providing products of consistent quality, competitive prices and flexible production scheduling capacity. Our ability to maintain this reputation greatly depends on the quality of the production materials purchased from our suppliers. For this reason, SMP considers its suppliers valuable assets for the achievement of quality objectives.

Suppliers with short lead times, competitive prices and flexible shipping abilities enable SMP to offer customers the dynamic partnership they have come to expect. Through long term, constructive relationships with suppliers, SMP continuously looks for opportunities to improve the flow of material and information, and ultimately to reduce costs and lead times. Suppliers to SMP must have a commitment to product quality and an understanding of the associated cost of poor quality when delivered to customers.
