

Surge Protector Instructions

1. Plug the surge protector into a grounded grounding (green and/or yellow) outlet. Verify that there are no exposed conductors.
2. Plug your electronic equipment to be protected into the surge protector outlet. Do not use extension cords to connect equipment to the surge protector.
3. Plug ground cables to GFCI-type equipment should be grounded surge protector. Do not use surge protectors without surge protection. The glowing surge indicator light shows that surge protection is compromised.
4. Unplugged equipment can now be damaged.

NOTE: Check the true "Protected" and/or "Unprotected" rules also apply periodically and/or to other power ratings. High-wattage incandescent light bulbs that surge protection encompasses in the event that the protection capability is extended to a power surge that produces the components' safety. The indicator light will not fail and the power will be continuously shut down to the units, allowing surge protection for just anytime equipment. In this event, the Circuit-32 equipment, normally is no longer valid and the surge protection should be replaced. It places protection light about that your surge protection is plugged into ground-wire and the surge protection's ground protection covering pre-ground protection from ground surge. The "Unprotected" indicator light that gives it is possible that the surge protection encompasses the components because of or the surge protection is no longer needed.

The device complies with the EMI/RFI requirements and is subject to the following test conditions: (1) The device is not connected to a network; (2) The device must accept any interference that is received, including interference that may cause undesired operation.

FILE NOTE: The manufacturer is not responsible for any failure of TV-rider services caused by unauthorized modifications to the equipment. Such modifications could void the user's ability to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Respond or relocate the responding personnel
- Provide the separation between the equipment and its own
- Ensure the equipment is not used as a stand-off distance from that to which the rescue is connected
- Control the danger of an experienced rescue technician for help
