This sample essay on Research Paper On Gender Roles reveals arguments and important aspects of this topic. Read this essay's introduction, body paragraphs and the conclusion below.

The important norms of life divide the people in different categories and groups depending upon the race, religion and age. There is another category that is most of the times simply irresistible to be forgotten which is the gender division. It is the just the instant reflex that makes the males and females to observe the difference during any kind of confrontation. As these issues stand by Sociology plays an important role in describing how the gender roles are devised and how they change as the time passes by. More or less the difference lies in the beliefs of the society including interpretation of different situations and the stereotyping that leads to certain conclusion at times (Wallace & Alison, 1995).

Gender Roles:

Social learning theory works for the socialization. Social learning theory is described as the process in which a person from its birth learns different aspects of life including behaviors and responses to the behaviors as he sees (Giddens et al, 2007). Socialization is therefore a process in which the person learns how customs, environment and laws work in society. Gender socialization is the focused form of socialization and allows the grooming of different sexes into individuals and how they are supposed to play their roles according to their genders in the society. Defining of the gender roles is an important in how the society works. Looking into the developed countries of the world, the gender roles are often termed towards discrimination but still the conventional roles of the women have changed considerably for both males and females. A person's gender role encloses many different elements including the way of clothing, styling etc. and the differences in these roles have always continued over time (Christie-Mizell, 2006). The division of the roles has been, historically, based on males and females but different gender roles have emerged overtime as well.

Thesis Statement For Gender Roles

Changing of gender roles has been a quite continuous process. Males and females trying to avoid their personal strengths of being a specific sex have changed. Research followed in Western countries have shown that the females have become lot more vulnerable and hollow in their approach towards their main role of bearing child and work domestically. The progressive approach has made them to deviate from their roles considerably causing the momentum to be shifted away from the equilibrium that requires stability (Giddens et al, 2007). Even the role of males has changed in most parts of the world as well.

Gender Roles in America:

The civilization has played an important role in the cultural aspects of the country where the gender role reformation has taken place in recent years. The formation of the law
