 From the field of Translation Studies the author has singled out approaches suited to LXX research The historical survey of
 views of translation in Antiquity reveals that among Greeks Romans Egyptians and Jews similar disputes about language and

 translator s ideology or to a variant in the Hebrew parent text we must ascertain that the deviation does not have a purely
 translational origin Every transformation has a reason and by categorizing the reasons behind all transformations one can
 trace the translational hierarchy that unconsciously guided the translator The rationale behind a transformation can be
 detected by analysing the literal alternative which the translator rejected The conclusions of this study are of importance for
