Grade 1econimcs November Essays:

School Life ,1924 **Grade Teacher** ,1960 *The Bookseller, Newsdealer and Stationer* ,1917 **The Colorado School Journal** ,1927 CEA. *Colorado School Journal* Colorado Education Association,1927 Capitalism, Democracy, and Ralph's Pretty Good Grocery John Mueller,2001-07-30 Democracy is overrated Capitalism on the other hand doesn't get enough credit In this provocative and engaging book John Mueller argues that these mismatches between image and reality create significant political and economic problems inspiring instability inefficiency and widespread cynicism We would be far better off he writes if we recognized that neither system is ideal or disastrous and accepted instead the humdrum truth that both are pretty good And to Mueller that means good enough He declares that what is true of Garrison Keillor's fictional store Ralph's Pretty Good Grocery is also true of democracy and capitalism if you can't get what you want there you can probably get along without it Mueller begins by noting that capitalism is commonly thought to celebrate greed and to require discourtesy deceit and callousness However with examples that range from car dealerships and corporate boardrooms to the shop of an eighteenth century silk merchant Mueller shows that capitalism in fact tends to reward behavior that is honest fair civil and compassionate He argues that this gap between image and reality hampers economic development by encouraging people to behave dishonestly unfairly and discourteously to try to get ahead and to neglect the virtuous behavior that is an important source of efficiency and gain The problem with democracy's image by contrast is that our expectations are too high We are too often led by theorists reformers and romantics to believe that democracy should consist of egalitarianism and avid civic participation In fact democracy will always be chaotic unequal and marked by apathy It offers reasonable freedom and security but not political paradise To idealize democracy Mueller writes is to undermine it since the inevitable contrast with reality creates public cynicism and can hamper democracy's growth and development Mueller presents these arguments with sophistication wit and erudition He combines mastery of current political and economic literature with references to figures ranging from Plato to P T Barnum from Immanuel Kant to Ronald Reagan from Shakespeare to Frank Capra Broad in scope and rich in detail the book will provoke debate among economists political scientists and anyone interested in the problems or non problems of modern democracy and capitalism Forthcoming Books Rose Arny,2003
