Transformation: A Personal Journey Through the British Transformers Comic Volume 2: 1987-1989 Stuart Webb, 2017-07-11 By 1987 the British Transformers was at the peak of its powers Alternating between US reprints showing the struggle for leadership within the Autobot and Decepticon forces and UK material dealing with the insane future Decepticon Galvatron's attempts to rule yesterday what had started as a toy advert had become a sprawling space opera seared into the minds of an entire generation Stuart Webb was one such reader and in 2012 he began a journey looking through every single issue of the series commenting on its highs and lows He became the first person to look at every backup strip and editorial and how they worked together to create the most thorough exploration of a publishing phenomenon ever undertaken It's also highly personal full of humour and silliness and even the occasionally thoughtful moment The final result is an essential read not just for Transformers fans but also for those interested in the history of Marvel UK and the impact this simple little comic had on an entire generation **Complete Sourcebook on Children's Software**, 1999 **My Year**

Collecting Toys 2017 Matthew Marchon, It's not an addiction it's a passion I love collecting toys Okay yeah fine maybe a little bit of an addiction We'll let you decide Journey with me as we take a trip back to 2017 The year my beloved WWF Hasbro figures returned to the shelves as WWE Retros The year Mega Construx added Masters Of The Universe to their line of mini figures The year I bought a collection of the 2011 Thundercats and found a bag of He Man figures at a thrift store in the mountains of New Hampshire While traveling New England for my hiking guides I stopped at every toy store flea market and thrift store I came across Not to mention my parents shed and attic always good places for old treasures And of course good old eBay The cover says it all you know what we're hunting down This isn't superheroes and Star Wars I'm looking for those forgotten lines And a few not so forgotten We're talking Dino Riders and Super Naturals Wrestling and MOTU GI Joes Turtles the ninja kind not the ones you have to brake for in the road Transformers and even though I know people hate it but I'm gonna say it anyway Go Bots And Thundercats everyone loves them Does that make up for it It was a good year for toy

hunting but not nearly as good as the years that fell around it Since this book is a little short we're going to give it away for free just pretend it's one of those mini comics that came with 80's action figures But don't let your kids read it some of the humor may be a little inappropriate They can enjoy the pictures though just like I did with the actual mini comics that came with my figures when I was a kid Let's take a look at my year collecting toys in 2017 **Packaging Girlhood** Sharon Lamb, Lyn Mikel Brown, 2025-06-25 The stereotype laden message delivered through clothes music books and TV is essentially a continuous plea for girls to put their energies into beauty products shopping fashion and boys This constant marketing cheapening of relationships absence of good women role models and stereotyping and sexualization of girls is something that parents need to first understand before they can take action Lamb and Brown teach parents how to understand these influences give them guidance on how to talk to their daughters about these negative images and provide the tools to help girls make positive choices about the way they are in the world In the tradition of books like *Reviving Ophelia* *Odd Girl Out* *Queen Bees and Wannabees* that examine the world of girls this book promises to not only spark debate but help parents to help their daughters **Toys as Culture** Brian Sutton-Smith, 1986 What are toys What do they represent beyond the literal image Do they affect growth are they learning tools baby sitters trivial objects with no particular significance This book is the first systematic analysis of the role of toys in contemporary society Employing history anthropology and psychology as well as the first hand accounts of players themselves the author explores the myriad of meanings behind the toy Book Jacket **Computer Gaming World** , **Children's Business** , 1988 *USA Today* , 2004
