to prove the policies promote fear destroy lives and fail to protect children Do sex offender laws protect children or are they inherently unfair practices that at their worst promote vigilante justice The latter this book argues By analyzing the social political historical and cultural context surrounding the emergence of current sex offender policies and laws the work shows how sex offenders have come to loom as greater than life monsters when in many cases that is not true at all Looking at its subject from a fresh viewpoint the book shares research and new analyses of data and qualitative evidence to show how sex offender laws are not only ineffective but engender destructive fear and anxiety To help readers understand the impact of these laws the author presents interviews with sex offenders and their families as they describe the day to day reality of living on the sex offender registry Citing research and statistics the book challenges the idea that sex offenders must be continually monitored and publicly identified because they are incurably predatory Most important the study shows that undue sex offender panic is preventing policymakers from addressing the true threats to children poverty and growing inequality
