Crocker, 2022-11-15 Christian organizations have always played a large role in Canadian education By 1949 five provinces had constitutionally protected denominational schools The federal government's responsibility for the education of Indigenous Peoples was effectively contracted out to the churches for more than a century resulting in a history of abuse that has only recently come to light From the 1950s to the 1970s several initiatives in different provinces set the stage for significant reforms to education Some of these tested the limits of denominational protections but could not shake the underlying constitutional structures Patriation of the Constitution and adoption of the Canadian Charter of Rights and Freedoms in 1982 codified fundamental changes in thinking about civil rights The Charter allowed existing denominational rights to be challenged on many fronts However all such challenges were rebuffed by the courts on the grounds that the Charter cannot be used to

override other parts of the Constitution By the 1990s it became apparent that another route to reform was available through the amending formula Constitutional amendments were used to end denominational control of schools in Newfoundland and Quebec in 1997 and 1998 The circumstances around those constitutional amendments are discussed in detail as possible precedents for similar outcomes in Alberta Ontario and Saskatchewan This book contends that change will certainly come to these provinces and several paths to reform are explored This reform aims to remove the discrimination inherent in denominational institutions while preserving some form of religious involvement in certain schools **Collective**

Bargaining Bulletin ,2000 **Green Schools Globally** Annette Gough,John Chi-Kin Lee,Eric Po Keung Tsang,2020-08-31 This book brings together stories of the green schools movement Eco Schools Enviroschools Green Schools Sustainable Schools ResourceSmart Schools etc in several countries around the world with a focus on the impact of the movement on the development and implementation of education for sustainable development in each of the countries In particular each story will explain the history of the movement per country its current status achievements obstacles and broader impact There have been a number of evaluations of these school movements at a national or more local level and numerous articles and chapters have been published on aspects of these schools activities but to date these have not been brought together in a single volume that focuses attention on the impact of the movement on education for sustainable development in each country This is the purpose of this volume The green schools movement focuses on a whole school approach which aims to include everyone students teachers and the local community to improve school environments including resource usage and the environmental footprint of the school to motivate students to take on environmental problems and seek resolutions particularly at a local level but also thinking globally and to improve students attitudes and behaviours as part of developing a sustainable mind set **Ontario Collective Bargaining Agreements Expirations** ,2001 **Canadian Labour Policy**

Quill & Quire ,2008 **Partnering With Parents in Elementary School Math** Hilary Kreisberg,Matthew L. Beyranevand,2021-02-03 How to build productive relationships in math education I wasn t taught this way I can t help my

child These are common refrains from today's parents and guardians who are often overwhelmed, confused, worried, and frustrated about how to best support their children with what they see as the new math. The problem has been compounded by the shift to more distance learning in response to a global pandemic. *Partnering With Parents in Elementary School Math* provides educators with long overdue guidance on how to productively partner and communicate with families about their children's mathematics learning. It includes reproducible surveys, letters, and planning documents that can be used to improve the home-school relationship, which in turn helps students, parents, teachers, and education leaders alike. Readers will find guidance on how to understand and empathize with what fuels parents' anxieties and concerns, align as a school and set parents' expectations about what math instruction their children will experience, and how it will help them. Communicate clearly and productively with parents about their students' progress, strengths, and needs in math. Run informative and fun family events, support homework. Coach parents to portray a productive disposition about math in front of their children. Educators, families, and students are best served when proactive, productive, and healthy relationships have been developed with each other and with the realities of today's math education. This guide shows how these relationships can be built.

Growing into Resilience Andre P. Grace, 2015-09-15 Despite recent progress in civil rights for sexual and gender minorities, SGM ensuring SGM youth experience fairness, justice, inclusion, safety, and security in their schools and communities remains an ongoing challenge. In *Growing into Resilience*, Andr P Grace and Kristopher Wells, co-founders of Camp fyrefly, a summer leadership camp for SGM youth, investigate how teachers, healthcare workers, and other professionals can help SGM youth build the human and material assets that will empower them to be happy, healthy, and resilient. Grace and Wells investigate the comprehensive physical, mental, and sexual health of SGM youth, emphasizing the role of caring professionals in an approach that recognizes and accommodates SGM youth. Throughout, the authors draw upon the personal narratives of SGM youth, emphasizing how research, policy, and practice must act together for them to be able to thrive and fulfill their promise. Both a resource for those professionally engaged in work with sexual and gender minorities and a comprehensive text for use in courses on working with vulnerable youth populations, *Growing into Resilience* is a timely and transdisciplinary book.

The Drug Paradox Tara L. Bruno, Rick Csiernik, 2018-04-26 Why are some drugs considered socially acceptable while others are demonized? What makes these definitions so widespread? Who benefits from these conceptualizations? *The Drug Paradox* examines both the empirically founded and the socially constructed facets of drugs and drug use, highlighting the incongruous aspects of laws, policies, and programming that aim to address behaviours around drugs. The authors explore this paradox, arguing that Canada's punitive approach to addressing drug use continues to exist alongside harm reduction strategies, and that these competing approaches ultimately impede Canada's ability to deal effectively with substance misuse. Using a policy-oriented approach while also emphasizing the utility of a multifaceted

biopsychosocial model this text provides students with a foundation in the sociology of psychoactive substances in the Canadian context It covers a broad range of issues models of addiction the history of Canada s drug laws media representation government responses to substance use and international perspectives on drug policy and addresses various research areas that are important for students to consider when trying to make sense of the competing discourses on drugs in society The Drug Paradox is ideal for use in sociology courses on drugs and drug use and will also appeal to those focusing on drug use from a criminology public health or policy perspective Ontario Labour Relations Board Reports Ontario Labour Relations Board,2009 The Big Learn Brian Thwaites,2008-07-02 Most of what we know today about how the human brain functions has been learned only very recently In just the past few years the amount of brain research in the world has increased tremendously The sheer number of neuroscientists now devoting considerable time energy and resources to the study of the inner workings of the brain is remarkable These ongoing studies and phenomenal technological advances in the field have led to startling discoveries turning conventional wisdom about how we use our heads practically upside down It s time for us now to take this new found knowledge and apply it to how we think learn and communicate Just as we know what kinds of foods and exercise can help us perform better physically we also know what kinds of ideas and principles we need to help us perform better mentally This is a book about the way we use our brains or at least the way we should use our brains to face and manage issues we deal with daily By combining much of what we know from the disciplines of brain research learning theory and the communication field Brian Thwaites offers innovative yet practical suggestions that will give those three pound organs inside our heads an adjustment that will not just invigorate and revitalize them but will actually change how we think remember and share information with each other After reading The Big Learn you will have made the happy discovery that your brain is capable of much much more than you ever thought possible **Contemporary Studies in Environmental and Indigenous Pedagogies** Andrejs Kulnieks,Dan Roronhiakewen Longboat,Young Young,2013-06-13 Contemporary Studies in Environmental and Indigenous Pedagogies A Curricula of Stories and Place Our book is a compilation of the work of experienced educational researchers and practitioners all of whom currently work in educational settings across North America Contributors bring to this discussion an enriched view of diverse ecological perspectives regarding when and how contemporary environmental and Indigenous curriculum figures into the experiences of curricular theories and practices This work brings together theorists that inform a cultural ecological analysis of the environmental crisis by exploring the ways in which language informs ways of knowing and being as they outline how metaphor plays a major role in human relationships with natural and reconstructed environments This book will be of interest to educational researchers and practitioners who will find the text important for envisioning education as an endeavour that situates learning in relation to and informed by an Indigenous Environmental Studies and Eco justice Education frameworks This integrated collection of theory and practice of environmental and Indigenous education is an

essential tool for researchers graduate and undergraduate students in faculties of education environmental studies social studies multicultural education curriculum theory and methods global and comparative education and women s studies Moreover this work documents methods of developing ways of implementing Indigenous and Environmental Studies in classrooms and local communities through a framework that espouses an eco ethical consciousness The proposed book is unique in that it offers a wide variety of perspectives inviting the reader to engage in a broader conversation about the multiple dimensions of the relationship between ecology language culture and education in relation to the cultural roots of the environmental crisis that brings into focus the local and global commons language and identity and environmental justice through pedagogical approaches by faculty across North America who are actively teaching and researching in this burgeoning field
