of the Hand William A. Woodbury, 1915 Women and Sex Tourism Landscapes Erin Sanders-McDonagh, 2016-08-12 Sexual spaces normally inhabited by mostly female sex workers are understood as masculine spaces and positioned for and around male consumers However red light zones and public sex performances in both Thailand and Holland are being explored and visually consumed by female tourists in significant numbers Their presence in red light districts and sexual venues is at odds with the ways in which sexual spaces have normally been positioned **Woman and Sex Tourism Landscapes**

explores female tourists interactions with highly sexualized spaces and places in two very different contexts the Netherlands and Thailand Addressing this incongruence this text explores the ways in which these spaces are constructed and examines the different relations that govern the management of and female tourist interactions with these liminal sexual zones Ethnographic data collected in both countries suggests that far from being male centred spaces the red light districts and associated sexual entertainment venues are very much open to female tourists Drawing on this research the author argues that some women are indeed interested in exploring sexualized zones challenging assumptions about women s involvements with sexual space Thinking specifically about the visual nature of women s sexualized experiences the analysis draws on a range of different theoretical understandings that address power privilege and the gaze An important contribution to a range of debates this book will appeal to students and researchers in tourism geography sociology gender studies and cultural theory

Dangerous Pleasures Gail Hershatter,2023-09-01 This pioneering work examines prostitution in Shanghai from the late nineteenth century to the present Drawn mostly from the daughters and wives of the working poor and declass elites prostitutes in Shanghai were near the bottom of class and gender hierarchies Yet they were central figures in Shanghai urban life entering the historical record whenever others wanted to appreciate castigate count regulate cure pathologize warn about rescue eliminate or deploy them as a symbol in a larger social panorama Over the past century prostitution has been understood in many ways as a source of urbanized pleasures a profession full of unscrupulous and greedy schemers a changing site of work for women a source of moral danger and physical disease a marker of national decay and a sign of modernity For the Communist leadership of the 1950s the elimination of prostitution symbolized China s emergence as a strong healthy and modern nation In the past decade as prostitution once again has become a recognized feature of Chinese society it has been incorporated into a larger public discussion about what kind of modernity China should seek and what kind of sex and gender arrangements should characterize that modernity Prostitutes like every other non elite group did not record their own lives How can sources generated by intense public argument about the larger meanings of prostitution be read for clues to those lives Hershatter makes use of a broad range of materials guidebooks to the pleasure quarters collections of anecdotes about high class courtesans tabloid gossip columns municipal regulations prohibiting street soliciting police interrogations of streetwalkers

and those accused of trafficking in women newspaper reports on court cases involving both courtesans and streetwalkers polemics by Chinese and foreign reformers learned articles by Chinese scholars commenting on the world history of prostitution and analyzing its local causes surveys by doctors and social workers on sexually transmitted disease in various Shanghai populations relief agency records fictionalized accounts of the scams and sufferings of prostitutes memoirs by former courtesan house patrons and interviews with former officials and reformers Although a courtesan may never set pen to paper we can infer a great deal about her strategizing and working of the system through the vast cautionary literature that tells her customers how not to be defrauded by her Newspaper accounts of the arrests and brief court testimonies of Shanghai streetwalkers let us glimpse the way that prostitutes positioned themselves to get the most they could from the legal system Without recourse to direct speech Hershatter argues these women have nevertheless left an audible trace Central to this study is the investigation of how things are known and later remembered and how later still they are simultaneously apprehended and reinvented by the historian This pioneering work examines prostitution in Shanghai from the late nineteenth century to the present Drawn mostly from the daughters and wives of the working poor and declass elites prostitutes in Shanghai were near the bottom of class and gender hie **Cotton** ,1926 **Vertical File Index** ,1981
