into those issues which are at the heart of educational controversy policy and practices and which survive the transience of political change and controversy The issues the aims of education standards of performance the consequent vision of learning the role of teachers progression from school to higher or further education and into employment the provision of such education and training and the control of education are by no means confined to the UK or to this day and age Pring identifies similar problems in other countries such as the USA Germany and France and indeed in the Greece of Plato and Aristotle and offers solutions with a comparative perspective It is a critical time Old patterns of education and its provision are less and less suitable for facing the twenty first century The patterns and modes of communication have changed radically in a few years and those changes are quickening in pace The economic context has been transformed affecting the skills and knowledge needed for employment The social world of young people raises fresh demands hopes and fears A global recession has affected young people disproportionately making quality of life and self fulfilment ever more difficult to attain In addressing learning and the learners first and foremost the book will argue for a wider vision of learning and a more varied pattern of provision Old structures must give way to new **The Times Index** ,2007 Indexes the Times and its supplements **Edexcel GCSE French** Clive Bell,2009
