Grosse,2009-02-09 This book explores the future of the financial services industry giving readers an idea of the kinds of institutions and services that will survive in the early twenty first century An informative and provocative exploration of the future of the financial services industry Focuses on likely changes in the near future such as greater use of the Internet for banking transactions and the increasing globalization of financial services Points to the probable disappearance of the insurance sector as a separate industry Describes changing conditions in key financial centres especially the US the UK Germany Japan and Switzerland **Sorting Out Your Finances For Dummies** Melanie Bien,2011-02-15 Being good with money is about getting into good habits and understanding the choices you make Fully updated to cover the latest financial trends and developments this book gives you the confidence to plot where your money goes to know your limits and to choose the right financial products for a wealthier future It will help you learn how to analyse your financial situation isolate problem areas properly structure your debt investments and retirement plans and adopt good money habits whatever your age or financial situation Once you ve sorted out your finances you ll get much more pleasure from the money you spend and the money you save Discover how to Make your salary go further Set financial goals and reach them Get out of debt Start an investment portfolio Prepare for the unexpected **Competition and choice in retail banking** Great Britain: Parliament: House of Commons: Treasury Committee,2011-04 In this report the Treasury Committee concludes that the pre conditions for effective competition in the retail banking market are not present The Committee highlights in particular a lack of price transparency and comparability in the personal current account market as well as the difficulty of switching The report calls on the Government to make competition a primary objective of the new regulatory body the Financial Conduct Authority FCA It also recommends a public interest test based on competition considerations for proposed future divestments of Government held stakes in the banks Given the continuing importance many consumers attach to a branch network especially for current account services the report notes that new entrants without access to an extensive branch network will be at a considerable disadvantage to established banks for the foreseeable future This means that the Government needs to examine carefully where it can help improve the conditions for effective competition New entry and reductions to barriers to entry and expansion may alone prove insufficient to tackle the problem of ineffective competition As a result the Committee urges the Independent Commission on Banking ICB to examine seriously whether there is a case for further structural reforms over and above the RBS and Lloyds Banking Group divestments to reduce concentration and promote competition Solving the too big to fail problem is critically important from a competition as well as a financial stability perspective **Review of Current Information in the Treasury Dept.
