Hong Kong in the Shadow of China Richard C. Bush,2016-10-11 A close up look at the struggle for democracy in Hong Kong Hong Kong in the Shadow of China is a reflection on the recent political turmoil in Hong Kong during which the Chinese government insisted on gradual movement toward electoral democracy and hundreds of thousands of protesters

occupied major thoroughfares to push for full democracy now Fueling this struggle is deep public resentment over growing inequality and how the political system established by China and dominated by the local business community reinforces the divide between those who have profited immensely and those who struggle for basics such as housing Richard Bush director of the Brookings Institution's Center on East Asia Policy Studies takes us inside the demonstrations and the demands of the demonstrators and then pulls back to critically explore what Hong Kong and China must do to ensure both economic competitiveness and good governance and the implications of Hong Kong developments for United States policy **APC**

improve and consolidate qualified governance arrangements in order to better address rapid economic and social changes. Such recommendations are applicable to cities and urban regions both within and outside of Europe. It identifies possible approaches, tools, and partnerships to tackle the effects of the crisis and to prepare European cities for future challenges.

The Borders of "Europe" Nicholas De Genova, 2017-08-26. In recent years, the borders of Europe have been perceived as being besieged by a staggering refugee and migration crisis. The contributors to *The Borders of Europe* see this crisis less as an incursion into Europe by external conflicts than as the result of migrants exercising their freedom of movement. Addressing the new technologies and technical forms European states use to curb control and constrain what contributors to the volume call the autonomy of migration, this book shows how the continent's amorphous borders present a premier site for the enactment and disputation of the very idea of Europe. They also outline how, from Istanbul to London, Sweden to Mali and Tunisia to Latvia, migrants are finding ways to subvert visa policies and asylum procedures while negotiating increasingly militarized and surveilled borders. Situating the migration crisis within a global frame and attending to migrant and refugee supporters as well as those who stoke nativist fears, this timely volume demonstrates how the enforcement of Europe's borders is an important element of the worldwide regulation of human mobility. Contributors: Ruben Andersson, Nicholas De Genova, Dace Dzenovska, Evelina Gambino, Glenda Garelli, Charles Heller, Clara Lecadet, Souad Osseiran, Lorenzo Pezzani, Fiorenza Picozza, Stephan Scheel, Maurice Stierl, Laia Soto, Bermant, Martina Tazzioli. [UV-Vis Luminescence Imaging Techniques / Técnicas de imagen de luminiscencia UV-Vis](#) Piccolo, Marcello, Stols-Witlox, Maartje, Fuster López, Laura, 2020-03-04. Ever since its first introduction in the field of conservation, the role of UV-VIS luminescence fluorescence (UFL and UVf respectively) imaging has been expanding. The unique and significant contribution of this technique for investigation of cultural heritage has led to the development of new methodologies and applications. Each chapter in this volume can be read independently. While this means that some repetition may occur between the individual chapters, in particular regarding the explanation of terminology and methodology, such overlap provides interesting opportunities for cross-comparison of both terminology and methodology. In addition, it highlights similarities and differences between different situations in the practical application.
