proponents of the field of contemporary music These essays provide a snapshot of the current collaborative and distributed processes that are employed by today's contemporary music practitioners The chapters contained in this volume reveal the varied nature of the approaches to creativity in music making and the ways that these are distributed across its practitioners during each stage of the development of musical works

**Pop Music Production** Phil Harding, 2019-06-28

technique where Harding expands upon previously released material to explain how Stay Another Day by East 17 changed his approach to mixing forever. Original Cloud-Based Music Production Matthew T. Shelvock, 2020-02-18. Cloud Based Music Production: Samples, Synthesis, and Hip Hop presents a discussion on cloud based music making procedures and the musical competencies required to make hip hop beats. By investigating how hip hop producers make music using cloud based music production libraries, this book reveals how those services impact music production en masse. Cloud Based Music Production takes the reader through the creation of hip hop beats from start to finish, from selecting samples and synthesizer presets to foundational mixing practices, and includes analysis and discussion of how various samples and synthesizers work together within an arrangement. Through case studies and online audio examples, Shelvock explains how music producers directly modify the sonic characteristics of hip hop sounds to suit their tastes and elucidates the psychoacoustic and perceptual impact of these aesthetically nuanced music production tasks.
