## Logique Du Sens:

**Logique Du Sens** Gilles Deleuze, 1990 Considered one of the most important works of one of France's foremost philosophers and long awaited in English The Logic Of Sense is an essay in literary and psychoanalytic theory and philosophy and helps to illuminate such works as Anti Oedipus Logique du sens Gilles Deleuze, 2014-01-02T00:00:00+01:00 travers des séries de paradoxes antiques et modernes ce livre cherche à terminer le statut du sens et du non sens et d'abord leur lieu. O se passe exactement ce qu'on appelle un événement La profondeur la hauteur et la surface entrent dans des rapports complexes constitutifs de la vie Les stoïciens furent un nouveau type de philosophes Lewis Carroll fut un nouveau type d'écrivain parce qu'ils partaient la conquête des surfaces Il se peut que cette conquête soit le plus grand effort de la vie psychique dans la sexualité comme dans la pensée Et que dans le sens et dans le non sens le plus profond c'est la peau

Logique du sens est paru en 1969 Language, Counter-memory, Practice Michel Foucault, 1980 Because of their range brilliance and singularity the ideas of the philosopher critic historian Michel Foucault have gained extraordinary currency throughout the Western intellectual community This book offers a selection of seven of Foucault's most important published essays translated from the French with an introductory essay and notes by Donald F Bouchard Also included are a summary of a course given by Foucault at College de France the transcript of a conversation between Foucault and Gilles Deleuze and an interview with Foucault that appeared in the journal Actuel Professor Bouchard has divided the book into three closely related sections The four essays in Part One examine language as a perilous limit of what we know and what we are The essays in the second part suggest the methodological guidelines to which Foucault subscribes and they record in the editor's words the penetration of the language of literature into the domain of discursive thought The material in the last section is more obviously political than the essays It treats language in use language attempting to impart knowledge and power Translated by the editor and Sherry Simon into fluent and lucid English these essays will appeal primarily to students of literature especially those interested in contemporary continental structuralist criticism But because of the breadth of Foucault's interests they should also prove valuable to anthropologists linguists sociologists and psychologists **Deleuze**

Pierre Montebello, 2008 L'époque qui a vu naître la pensée de Deleuze s'est ouverte à des débats innombrables passionnés Elle a engendré un foisonnement de sensibilités multiples traversées par des lignes de force irréductibles phénoménologie structuralisme psychanalyse antipsychiatrie anthropologie littérature linguistique art sciences Elle a en retour contraint la philosophie à se poser la question de sa valeur propre de sa validité de sa cohérence Or non seulement Gilles Deleuze a su redonner voix à la grandeur de la philosophie mais de surcroît il a fait bouger la philosophie bloquée dans ses propres clivages finis et infinis chair et univers ontologie et phénoménologie esprit et corps Par son art du paradoxe découvrant ce qui ne peut être que pensée par l'érection au cœur de la pensée d'une vraie passion de la pensée par l'ouverture enfin ce qui n'est pas la moindre des choses au dehors au dehors non philosophique la philosophie s'est remise en mouvement et a

redécouvert la puissance de désillusion qui fait l'essentiel de son action *Monadologies* Jeremy Dunham, Pauline Phemister, 2018-10-29 According to the received view Kant's critical revolution put an end to the kind of metaphysics of which Leibniz's Monadology is the example par excellence This volume challenges Kant's claim by providing a far more nuanced version of philosophy's post-Kantian tradition that spans from the late eighteenth to the early twentieth century and brings to light a rich tradition of new monadologists many of whom have been unjustifiably forgotten by contemporary historians of philosophy Through this complex dialogue monadology is shown to be a remarkably fecund hypothesis with many possible variations and developments The volume's focus on monadology exposes the depth and breadth of the post-Kantian period in an original and previously unexplored way and opens up numerous avenues for future research Crucially however this volume not only shows that monadological metaphysics did continue after Kant but also asks the critical question of whether it should have done so Consequently the question of whether monadological metaphysics could also have a future is shown to be relevant in a way that was previously almost inconceivable This book was originally published as a special issue of the *British Journal for the History of Philosophy*

**Tome 1 Philosophie du langage, Logique philosophique / Volume 1 Philosophy of language, Philosophical logic** Guttorm Fløistad, G.H. Von Wright, 2012-12-06 The present publication is a continuation of two earlier series of chronicles *Philosophy in the Mid-Century* Firenze 1958-59 and *Contemporary Philosophy* Firenze 1968 edited by Raymond Klibansky As with the earlier series the present chronicles purport to give a survey of significant trends in contemporary philosophical discussion The time-space covered by the present series is approximately 1966-1978 The need for such surveys has I believe increased rather than decreased over the last years The philosophical scene appears for various reasons more complex than ever before The continuing process of specialization in most branches the emergence of new schools of thought particularly in philosophical logic and the philosophy of language the convergence of interest though not necessarily of opinion of different traditions upon certain problems and the increasing attention being paid to the history of philosophy in discussions of contemporary problems are the most important contributory factors Surveys of the present kind are a valuable source of knowledge of this complexity and may as such be an assistance in renewing the understanding of one's own philosophical problems The surveys it is to be hoped may also help to strengthen the Socratic element of modern philosophy the dialogue or *Kommunikationsgemeinschaft* So far four volumes have been prepared for the new series The present chronicles in the *Philosophy of Language and Philosophical Logic* Vol I are followed by chronicles in the *Philosophy of Science* Vol II and *Philosophy of Action* Vol

**Gilles Deleuze and the Ruin of Representation** Dorothea Olkowski, 1999-10-28 Dorothea Olkowski's exploration of the philosophy of Gilles Deleuze clarifies the gifted French thinker's writings for specialists and nonspecialists alike Deleuze she says accomplished the ruin of representation the complete overthrow of hierarchic organic thought in philosophy politics aesthetics and ethics as well as in society at large In Deleuze's philosophy of difference she discovers the source of a new

ontology of change which in turn opens up the creation of new modes of life and thought not only in philosophy and feminism but wherever creation is at stake The work of contemporary artist Mary Kelly has been central to Olkowski's thinking In Kelly she finds an artist at work whose creative acts are in themselves the ruin of representation as a whole and the text is illustrated with Kelly's art This original and provocative account of Deleuze contributes significantly to a critical feminist politics and philosophy as well as to an understanding of feminist art Deleuze & Guattari Eleanor Kaufman, Kevin Jon Heller, 1998 During their lives Gilles Deleuze and Felix Guattari were two of France's most prominent thinkers and their work continues to be a vital and influential part of critical theory The essays in this collection written by prominent scholars offer a new approach to their work Unique in its emphasis on Guattari both in conjunction with Deleuze and independently this volume features an essay by Deleuze himself and includes a comprehensive bibliography of Guattari's and Deleuze's work The body of work explored here spans three decades and cuts across the lines of philosophy political theory geography literature aesthetics and even the applied sciences Readers unfamiliar with Deleuze and Guattari will gain a broad sense of their work from these pages specialists will discover new and different methods of understanding the contributions of these writers The essays map out a set of applications that rather than explain Deleuze and Guattari aim to extend and reinvent their thought in new and real life domains from cinema to the Gulf War from quantum mechanics to the L A riots and from Israel's deportation of Palestinians to Jean Jacques Rousseau's masochism Overall the collection demonstrates the wide range of potential applications of Deleuze's and Guattari's theories and expands current readings of their work

**Rhapsody of Philosophy** Max Statkiewicz, 2015-11-06 This book proposes to rethink the relationship between philosophy and literature through an engagement with Plato's dialogues The dialogues have been seen as the source of a long tradition that subordinates poetry to philosophy but they may also be approached as a medium for understanding how to overcome this opposition Paradoxically Plato then becomes an ally in the attempt to overturn Platonism which Gilles Deleuze famously defined as the task of modern philosophy Max Statkiewicz identifies a rhapsodic mode initiated by Plato in the dialogues and pursued by many of his modern European commentators including Nietzsche Heidegger Irigaray Derrida and Nancy The book articulates this rhapsodic mode as a way of entering into true dialogue *dia logos* which splits any univocal meaning and opens up a serious play of signification both within and between texts This mode he asserts employs a reading of Plato that is distinguished from interpretations emphasizing the dialogues as a form of dogmatic treatise as well as from the dramatic interpretations that have been explored in recent Plato scholarship both of which take for granted the modern notion of the subject Statkiewicz emphasizes the importance of the dialogic nature of the rhapsodic mode in the play of philosophy and poetry of Platonic and modern thought and indeed of seriousness and play This highly original study of Plato explores the inherent possibilities of Platonic thought to rebound upon itself and engender further dialogues **Social**

Guattari and that of Jean Laplanche particularly his major and as yet still relatively unfamiliar notion of the phantasme Social Formation in Hardy's Major Novels is an original and groundbreaking rereading of Hardy's four major tragic novels The readings are sophisticated and yet accessible The theoretical work is complemented by the use of new and hitherto unregarded major empirical findings that reveal the very heart of Hardy's creative universe *Chiasmi International* 16 Aa. **Gilles Deleuze** John Marks, 1998-05-01 Gilles Deleuze is widely regarded as one of the major post war proponents of Nietzschean thought in continental philosophy Over a period of forty years he presented what amounts to a philosophy of vitalism and multiplicity bringing together concepts from thinkers as diverse as Nietzsche and Hume In the first comprehensive English language introduction to Deleuze John Marks offers a lucid reading of a complex abstract and often perplexing body of work Marks examines Deleuze's philosophical writings as well as the political and aesthetic preoccupation which underpinned his thinking and provides a rigorous and illuminating reading of Deleuze's early studies of Hume Nietzsche Kant Bergson and Spinoza his collaborations with Félix Guattari and the development of a distinctively Deleuzian conceptual framework Marks focuses on the philosophical friendship that developed between Deleuze and Foucault and considers the full range of Deleuze's fascinating writings on literature art and cinema This is a clear and concise guide to the work of one of the twentieth century's most influential thinkers Deleuze and Language J.

Lecerclé, 2002-10-07 In the field of philosophy of language is there life beyond Chomsky Deleuze's deep distrust for and fascination with language provide a positive answer nothing less than a brand new philosophy of language where pragmatics replaces structural linguistics and where the literary text and the concept of style have pride of place This should be good news not only for philosophers but for linguistics and literary critics as well
