Lucy Calkins Kindergarten:

Creating Schools That Heal Lesley Koplow, 2015 Lesley Koplow's well-examined truths uncover an image of intimacy between teacher and child sorely needed in our schools. Her emotionally responsive teacher is the pivot for a classroom community that visibly supports and honors its members in the great variety of their lives. What stands in the way is the question Ms. Koplow courageously answers. Vivian Gussin Paley, author of *In Mrs. Tulley's Room: A Childcare Portrait*. In a world where children are beset by violence and stress, Lesley Koplow provides educators with clear, level-headed advice on how to construct therapeutic learning environments for all children. This is a book about integrating preventive mental health practice into public schools, preschool through grade 5. Koplow, a psychotherapist, discusses the mandate for violence prevention and offers an intervention framework for teachers, administrators, and school-based clinicians who want to improve the emotional climate in their school. This important and timely volume helps educators read the signs of distress or problematic social-emotional development as they are likely to manifest themselves in the school setting. Introduces a practice model that calls for strengthened teacher-child connections. Addresses in separate chapters the roles of the teacher, principal, and school-based clinician providing guidance and effective strategies for each. Demonstrates that interventions can be done effectively by existing school personnel. Describes a project to facilitate teacher gathering of psycho-social history that can be used to inform constructive curricular practice. Poses compelling questions for policymakers including concerns about the effect that the current focus on standards and test scores is having on the emotional tone of schools. Includes a chapter addressing what we've learned from the recent tragic events of September 11th in New York City. **Catching**

Readers Before They Fall Pat Johnson, Katie Keier, 2023-10-10 Every teacher of reading plays a vital role in helping to catch those readers for whom learning to read does not come easily. Through examples from both adults and children, the authors explain and describe the complex, integrated network of strategies that go on in the minds of proficient readers—strategies that struggling readers have to learn in order to construct their own reading processes. This book is essential reading for all who work with struggling readers in any context and contains a wealth of resources, including a thorough explanation of all the sources of information readers use to solve words, examples and scenarios of teacher-student interactions, prompts to use with struggling readers, lessons on modeling and assessment guidelines. **A Field Guide to the Classroom Library** Lucy Calkins, 2002 Provides comprehensive and accessible leveled lists and guides for 1,200 children's trade books for kindergarten through 6th grade to help teachers build classroom libraries. [Learning to Write and Loving It!](#)

[Preschool-Kindergarten](#) Miriam P. Trehearne, 2011-08-17 *Learning to Write and Loving It!* equips teachers of young children with practical strategies, assessment tools, and motivating writing activities that are based on current research and proven practice and are easily applicable to all kinds of learning environments. Included are many authentic writing samples and photos to illustrate effective developmentally appropriate instructional methods, mini-lessons, and activities. Sought after

author and speaker Miriam P Trehearne demonstrates how to scaffold play and literacy learning and how to easily link assessment to instruction Key features differentiate using effective instructional approaches for teaching writing and supporting inquiry and play assess and document student writing seamlessly throughout the day motivate and engage children in writing fiction narrative nonfiction poetry and song enjoy learning with a powerful collection of vignettes from real classrooms and use teacher friendly guidelines for effectively integrating technology and selecting software for young children A companion CD offers modifiable reproducibles observation checklists assessments and projects for parents to do with their young children Learn how to successfully scaffold writing and in the process foster cross curricular skills in science social studies and math Research shows that writing provides a strong foundation for literacy development Further writing helps children express themselves clarify their thinking communicate ideas and integrate new information into their knowledge base Publisher

Observation and Participation in Early Childhood Settings Jean Billman, Janice A. Sherman, 2003 This text was written to give students experience in using effective methods for observing young children's development ages 0-8 and documenting their observations Designed to guide students' participation with children of different age groups in a variety of early childhood settings the text encourages students to interact with children as they learn more about development by carrying out the activities outlined in each chapter This text models the educational approaches that professionals advocate for early childhood classrooms: observational learning, active learning, guided discovery, choice, mini-lessons, and cooperative learning These approaches are incorporated into this text through concise overviews and numerous activities related to early childhood development and education

Never Too Early to Write Madeline Johnson, 1999 Offers advice to teachers on how to set up writing workshops in kindergarten and first grade classrooms Describes ten writing workshop strategies and featuring tips on how to include parents in the writing program

Teachers' Reading/Teachers' Lives Mary Kay Rummel, Elizabeth P. Quintero, 1997-08-28 The premise of this book is important: that teachers' literacy experiences not only make a difference in their literacy instruction but also in their professional judgment and actions related to curriculum decisions and their resistance to prescribed methods and materials which do not allow children's literacy to flourish The teachers' own words in the autobiographical chapters offer powerful testimony supporting approaches to literacy that encourage and support the job of reading and writing rather than pedantic and meaningless curriculum methods that emphasize isolated skills and drills The topic is very significant There is currently a backlash against the whole language approach which through the years has had other titles but has always emphasized the creative, responsive teaching described in meaningful, individual, integrated, and joyful approaches to the teaching of reading and writing This book could have a positive influence on the current discussions about the teaching of literacy

Children's Play, Pretense, and Story Susan Douglas, Lesley Stirling, 2015-12-21 At the heart of this volume is the recognition that children's engagement with play and story are intrinsically and intricately linked The contributing authors share a passionate

interest in the development and well being of children in particular through their use of imagination and adaptation of the everyday into play and stories Following these principles the volume explores the connections between play story and pretense with regard to many cultural and contextual factors that influence the way these elements vary in children s lives In a departure from earlier collections on play and story the authors take a particular focus on normative as compared with atypical development This collection begins with an approach to understanding the developmental relationship between play and story which recognizes their similarities while acknowledging their differences Much of the collection addresses pretend play and story in children with autism spectrum disorder an understudied but important group for consideration as these dimensions of their lives and development have often been considered problematic The volume also includes sections on play and story in classroom settings and play and story across cultures including non English speaking environments such as Israel Romania China and Mexico It concludes with a discussion of how play differs across sociocultural and economic contexts making a unifying claim for the importance of play in children s lives but also calling for an understanding of what play means to very different groups of children
