threatens developmental gains that have been painstakingly achieved For nearly two decades South Africans have conducted exhaustive analyses of the country's challenges embarked on bold scenario exercises and more recently produced forward looking strategies aimed at addressing these challenges The most eminent of these in recent years were the Department of Economic Development's New Growth Path and the National Planning Commission's Draft National Development Plan We know now what the problems are and by and large what needs to change to address them Courage is required now to forge consensus to take decisions on strategies and to start implementing them As in previous years this publication with its slightly different format and appearance seeks to provide analysis and provoke debate on how this might be achieved *The University Challenge* Edward Byrne, Charles Clarke, 2020-01-24 More than ever we need our universities to be engines of change and social justice Universities can play a major role in making this complex and changing world a better place helping economies and societies to adapt and respond to the grand challenges we face from tackling climate change to harnessing artificial intelligence This is their mission and their challenge If universities are to remain true to their higher purpose they must also find a higher gear Ed Byrne and Charles Clarke show how transforming universities can change the world

age Further information is needed on why the Army is so dependent on recruiting personnel under the age of 18 years compared to the other two Services and whether steps are being taken to reduce this dependency Of those recruited in 2012 3 5 per cent of the Army were rated at entry level 2 for literacy that of a 7 to 8 year old and 39 per cent had a literacy level of an eleven year old If as the MoD states it has to recruit personnel at whatever level of attainment is available then it should boost remedial action when recruitment entry standards are particularly low In light of changes brought about by Future Force 2020 it may be that recruiting personnel with higher levels of attainment would better meet the future needs of the Armed Forces Whilst the Committee recognises that some recruits may not be eager to take further academic exams the MoD should encourage more recruits to undertake English and Maths GCSEs which would stand them in good stead for future employment The MoD has carried out some useful pilot projects with paramedic training and should identify more potential projects to ensure that vital skills paid for by the MoD are not lost to the country *Teaching Community School Mathematics* Barbara Miller-Souviney,1981 **Editor & Publisher** ,1925 *Dry Goods Merchants Trade Journal* ,1925
