Timber Construction Manual Thomas Herzog, Julius Natterer, Roland Schweitzer, Michael Volz, Wolfgang

Winter, 2012-12-10 with some 600 photos and 4000 drawings and plans the Timber Construction Manual is a comprehensive and indispensable reference work in the specialist literature on timber. It looks at all types of timber and timber materials also presenting detailed information on the current norms and standards. Chapters cover the basic principles of working with timber providing detailed information on subjects such as heat noise insulation fire protection treatment. The significance of timber with particular reference to ecology is also investigated. Timber as a load bearing material is considered and topics such as new methods of joining transport and montage are documented. The second part of the volume presents a large number of built examples which feature some classic structures but focus chiefly on more recent buildings. The spectrum presented ranges from heavy load bridges to multi storey residential buildings. The second part of the examples looks specifically at topics such as facades building skins etc.
