Discourse Lynne Cameron, 2003-03-13 Metaphor in Educational Discourse is a superb piece of applied linguistics research that integrates Vygotsky's theory of concepts with current work on metaphor into a coherent framework for investigating how teachers and learners negotiate figurative language in order to promote development in the classroom setting In what is likely to become the standard for future studies in this area Lynne Cameron meticulously demonstrates the central role of linguistic metaphors in classroom learning designed to lead learners to a deeper understanding of complex mathematical and scientific concepts James P Lantolf Professor of Applied Linguistics The Pennsylvania State University This book reports research into metaphor in use with school students The setting for the research is a UK school and the participants are around ten years old with their first language well established but still developing concepts and understandings Close examination of a corpus of classroom spoken discourse reveals how metaphor is employed by their teachers not just in explaining ideas but in managing and mediating the activity of the classroom and the learning of the students Particular issues discussed include the problems of identifying metaphors in spoken discourse the conventionalism of metaphors in the discourse of socio cultural groups and how a socio cultural approach can account for systematicity in metaphor use

Mathematical Metaphors, Memories, and Mindsets Carmen M. Latterell, Janelle L. Wilson, 2020-04-10 United States students continue to have difficulties with the subject of mathematics Sometimes it is believed that students aren't smart enough to master mathematics or that mathematics is just too difficult for all but the chosen few This book offers an alternative explanation Students difficulties in mathematics can best be understood and explained social scientifically That is Learning Theories Agents of Socialization and more generally cultural and social milieu are relevant in trying to understand individuals ideas about mathematics The book begins by providing an overview of the current status in mathematics education Popular cultural portrayals of mathematics and mathematicians are examined The book then delves deeper into how students perceive mathematics and mathematicians by examining how students view mathematicians how students

define mathematics and what themes emerge from students mathematical autobiographies and their metaphors The book describes a semantic differential in an effort to ascertain the meanings of math that people hold and shows the different patterns of responses among various groups of people Finally the book delves into mathematical mindsets a current approach to understanding mathematical identities as well as success and failure in mathematics

The Critical Imagination James Grant, 2013-04-11 The Critical Imagination is a study of metaphor imaginativeness and criticism of the arts Since the eighteenth century many philosophers have argued that appreciating art is rewarding because it involves responding imaginatively to a work Literary works can be interpreted in many ways architecture can be seen as stately meditative or forbidding and sensitive descriptions of art are often colourful metaphors music can shimmer prose can be perfumed and a painter's colouring can be effervescent Engaging with art like creating it seems to offer great scope for imagination Hume Kant Oscar Wilde Roger Scruton and others have defended variations on this attractive idea In this book James Grant critically examines it The first half explains the role imaginativeness plays in criticism To do this Grant answers three questions that are of interest in their own right First what are the aims of criticism Is the point of criticizing a work to evaluate it to explain it to modify our response to it or something else Second what is it to appreciate art Third what is imaginativeness He gives new answers to all three questions and uses them to explain the role of imaginativeness in criticism The book's second half focuses on metaphor Why are some metaphors so effective How do we understand metaphors Are some thoughts expressible only in metaphor Grant's answers to these questions go against much current thinking in the philosophy of language He uses these answers to explain why imaginative metaphors are so common in art criticism The result is a rigorous and original theory of metaphor criticism imaginativeness and their interrelations

Studying Scientific Metaphor in Translation Mark Shuttleworth, 2017-03-16 Studying Scientific Metaphor in Translation presents a multilingual examination of the translation of metaphors Mark Shuttleworth explores this facet of translation and develops a theoretically nuanced description of the procedures that translators have recourse to when translating metaphorical language Drawing on a core corpus consisting of six Scientific American articles in the fields of

neurobiology and biotechnology dating from 2004 along with their translations into Chinese French German Italian Polish and Russian Shuttleworth provides a data driven and theoretically informed picture of the processes that underpin metaphor translation The book builds interdisciplinary bridges between translation scholars and metaphor researchers proposes a new set of procedures for metaphor translation conceived within the context of descriptive translation studies and puts forward a possible resolution to the debate on metaphor translatability

Children and Methods Kristine Henriksen Garroway, John W. Martens, 2020-01-29 In *Children and Methods Listening To and Learning From Children in the Biblical World* Kristine Henriksen Garroway and John W Martens bring together an interdisciplinary collection of essays addressing children in the Hebrew Bible New Testament and broader ancient world While the study of children has been on the rise in a number of fields the methodologies by which we listen to and learn from children in ancient Judaism and Christianity have not been critically examined This collection of essays proposes that while the various lenses of established methods of higher criticism offer insight into the lives of children by filtering these methods through the new field of Childist Criticism children can be heard and seen in a new light

Engineering Societies in the Agents World V Marie-Pierre Gleizes, Andrea Omicini, Franco Zambonelli, 2005-08-25 The rst workshop Engineering Societies in the Agents World ESAW was held in August 2000 in conjunction with the 14th European Conference on Artificial Intelligence ECAI 2000 in Berlin It was launched by a group of researchers who thought that the design and development of MASs multi agent systems not only needed adequate theoretical foundations but also a call for new techniques methodologies and infrastructures to develop MASs as artificial societies The second ESAW was co located with the European Agent Summer School ACAI 2001 in Prague and mostly focused on logics and languages middleware infrastructures and applications In Madrid the third ESAW concentrated on models and methodologies and took place with the Cooperative Information Agents workshop CIA 2002 The fourth ESAW in London was the rst one that ran as a stand alone event apart from the usual works on methodologies and models it also stressed the issues of applications and multidisciplinary models Based on the success of previous ESAWs and also given that the difficult challenges in the construction of artificial societies are not yet fully addressed the fifth ESAW workshop was organized in the same spirit as its predecessors In particular ESAW2004 took place at the IRT laboratory of the Université Paul Sabatier Toulouse France at the end of October 2004 It was not located with any other scientific event in the same way as ESAW 2003 ESAW 2004 remained committed to the use of the notion of MASs as the seeds for animated constructive and highly interdisciplinary discussions about technologies methodologies and tools for the engineering of complex distributed systems

Cognitive Modeling Francisco José Ruiz de Mendoza Ibáñez, Alicia Galera Masegosa, 2014-06-15 This monograph studies cognitive operations on cognitive models across levels and domains of meaning construction It explores in what way the same set of cognitive operations either in isolation or in combination account for meaning representation whether obtained on the basis of inferential activity or through constructional composition As a consequence it makes explicit links

between constructional and figurative meaning The pervasiveness of cognitive operations is explored across the levels of meaning construction argument implicational illocutionary and discourse structure distinguished by the Lexical Constructional Model This model is a usage based approach to language that reconciles insights from functional and cognitive linguistics and offers a unified account of the principles and constraints that regulate both inferential activity and the constructional composition of meaning This book is of value to scholars with an interest in linguistic evidence of cognitive activity in meaning construction The contents relate to the fields of Cognitive Grammar Cognitive Semantics Construction Grammar Functional Linguistics and Inferential Pragmatics
