Readings in Modern Political Analysis Deane E. Neubauer, 1974-01-01      **Isolation and Paradox** Frank Rusciano, 1989-06-26 The controlling idea for this study and a major theme in classical and modern social analysis is the distinction between public and private sectors in liberal societies Professor Rusciano's purpose is to consider how the common ground defined by the use of the notion public in public opinion and public choice can lead to a revitalization of the term in modern social analysis In Chapter 1 the author shows that no public choice procedure may distinguish consistently between public and private issues public and private goods and public and private decision rules He also shows that no procedure may consistently define the public realm implied by the term public choice To illustrate this problem the author scrutinizes three paradoxes of public choice Arrow's General Possibility theorem Olson's logic of collective action and Barry's problem of legitimizing responsive choice procedures Succeeding chapters discuss the definition of public advanced in Elisabeth Noelle Neumann's spiral of silence theory of public opinion elaborate on the notion of public and the Arrow problem and apply the theorems derived from Noelle Neumann's theory to the three paradoxes of public choice Chapter 5 theoretically applies the argument developed in previous chapters to economic behavior through a critique of Fred Hirsch's Social Limits to Growth and to the problem of collective action The chapter concludes with a formal model and three hypotheses which are tested in Chapters 6 and 7 through empirical analyses of classic problems in collective action and

choice and as models of a revised notion of social preference Finally the revised notion is illustrated by observations about consumer behavior conventions of language and the definitions and functions of social and state institutions Isolation and Paradox evolved from lectures and seminars delivered while Professor Rusciano was Visiting Professor at the Institut fur Publizistik at the University of Mainz the German Federal Republic Political and social scientists as well as students in political theory contemporary political analysis comparative politics public opinion and political methodology will find this careful logical study and its full complement of tables and charts necessary and informative reading
