economy describes a world in which reuse through repair reconditioning and refurbishment is the prevailing social and economic model. The business opportunities are huge but developing product and service offerings and achieving competitive advantage means rethinking your business model from early creativity and design processes through marketing and communication to pricing and supply. *Designing for the Circular Economy* highlights and explores state of the art research and industrial practice highlighting CE as a source of new business opportunities, radical business change, disruptive innovation, social change and new consumer attitudes. The thirty four chapters provide a comprehensive overview of issues related to product circularity from policy through to design and development. Chapters are designed to be easy to digest and include numerous examples. An important feature of the book is the case studies section that covers a diverse range of topics related to CE business models and design and development in sectors ranging from construction to retail, clothing, technology and manufacturing. *Designing for the Circular Economy* will inform and educate any companies seeking to move their business models towards these emerging models of sustainability. Organizations already working in the circular economy can benchmark their current activities and draw inspiration from new applications and an understanding of the changing social and political context. This book will appeal to both academia and business with an interest in CE issues related to products innovation and new business models.

Toy Story Susan Smith, Noel Brown, Sam Summers, Chris Pallant, 2018-01-25. A collection of original essays on Toy Story exploring its themes, techniques and cultural significance.

Video Game Policy Steven Conway, Jennifer deWinter, 2015-10-14. This book analyzes the effect of policy on the digital game complex: government, industry, corporations, distributors, players and the like. Contributors argue that digital games are not created nor consumed outside of the complex power relationships that dictate the full production and distribution cycles and that we need to consider those relationships in order to effectively read and analyze digital games. Through examining a selection of policies e.g. the Australian government's refusal until recently to allow an R18 rating for digital games, Blizzard's policy in regards to intellectual property, Electronic Arts corporate policy for downloadable content (DLC), they show how policy that is to say the rules governing the production, distribution and consumption of digital games has a tangible effect upon our understanding of the digital game medium.

Animal Narratology Joela Jacobs, 2020-12-15. *Animal Narratology* interrogates what it means to narrate, to speak, to speak for, on behalf of, and to voice or represent life beyond the human, which is in itself as different as insects, bears and dogs are from each other and yet more as individual as a single mouse, horse or puma. The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of attitude toward and responsibility for the animals that are read and written about, thus demonstrating that just as the animal does not exist, neither does the human. In their zoopoetic focus, the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology, yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non-human in the first place. Many of the

analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another's perspective to the degree that such an endeavor is possible. Ultimately the contributions call for a recognition of the many spaces, moments and modes in which human lives are entangled with those of animals, one of which is located within the creative bounds of storytelling.

The Vampire Diaries as Postmodern Storytelling
 Kimberley McMahon-Coleman, Nina Vanessa Weber, Iris Aya Laemmerhirt, 2024-01-17

Taking a postmodern critical approach, this collection of new essays explores The CW Network's popular television drama The Vampire Diaries, taking in the complete original series (2009–2017), its spinoffs, source novels and fan fiction. Spanning three decades, TVD has engaged its predominantly teenage audience with storylines around love, friendship, social politics and gender roles. Contributors traverse the franchise's metamorphosis to suit the complex tastes of an early 21st-century audience.

Nutrients and Nutraceuticals for Active & Healthy Ageing
 Seyed Mohammad Nabavi, Grazia D'Onofrio, Seyed Fazel Nabavi, 2020-09-28

This book focuses on the nutrients and nutraceuticals that promote active and healthy ageing, recently defined by the WHO as the process of development and maintenance of functional capacity that allows well-being at an advanced stage of life. There has been a rapid rise in the use of nutritional interventions as well as specific nutraceuticals in the management of multifactorial aspects of clinical health outcomes. Written by leading experts, this book comprehensively discusses the various ageing phenotypes and age-related diseases. It also assesses the nutritional status of the elderly and the various epidemiological factors that influence it. It reviews the role of dietary fiber in disease-free and fully functional ageing. Further, the book explores the benefits of polyphenols, which are secondary plant metabolites in protecting against cancer, cardiovascular diseases and various neurodegenerative diseases.

Fossil Fuel Subsidy Reforms
 Jun Rentschler, 2018-04-27

Countries around the world are spending up to 500 billion per year on subsidising fossil fuel consumption. By some estimates, the G20 countries alone are spending around another 450 billion on subsidising fossil fuel production. In addition, the indirect social welfare costs of these subsidies have been shown to be substantial, for instance due to air pollution, road congestion, climate change and economic inefficiency, to name a few. Considering these numbers, there is no doubt that fossil fuel subsidies cause severe economic distortions that compromise countries' prospects of achieving equitable and sustainable development. This book provides a guide to the complex challenge of designing, assessing and implementing effective fossil fuel subsidy reforms. It shows that subsidy reform requires a careful balancing of complex economic and political trade-offs as well as measures to mitigate adverse effects on vulnerable households and to assist firms with implementing efficiency-enhancing measures. Going beyond the purely fiscal perspective, this book emphasises that smart subsidy reforms can contribute to all three dimensions of sustainable development: environment, society and economy. Over the course of eight chapters, this book considers a wide range of agents and stakeholders, markets and policy measures in order to distil the key principles of designing effective fossil fuel subsidy reforms. This book will be of great relevance to scholars and policy makers with an interest in energy.

An Ethic of Hospitality Emily Jeptekeny Choge, 2020-07-30 In our increasingly xenophobic world countries are turning away refugees and immigrants Based on the situation in Kenya this book offers a countercultural ethic of hospitality and welcome to the stranger an ethic fraught with dangers and yet filled with great opportunities for transforming our world Drawing on the scriptural pilgrim motif and specifically on the book of Hebrews this study paints a picture of refugees not only as needy strangers to be herded into camps but as brothers and sisters who bring with them treasures and talents that can enrich our understanding of our Christian identity and mission as pilgrims in the world The hospitality practice seen in Hebrews offers hope and promise not only for refugees themselves but also for the pilgrim church Like the ancient heroes of faith portrayed in Hebrews we too live as pilgrims and aliens who await with hope the city whose architect and founder is God Refugees in fact teach us how to live our pilgrim identity they become teachers not only for the church in Kenya but also for the body of Christ worldwide

Ice and Snow in the Cold War Julia Herzberg, Christian Kehrt, Franziska Torma, 2018-10-19 The history of the Cold War has focused overwhelmingly on statecraft and military power an approach that has naturally placed Moscow and Washington center stage Meanwhile regions such as Alaska the polar landscapes and the cold areas of the Soviet periphery have received little attention However such environments were of no small importance during the Cold War in addition to their symbolic significance they also had direct implications for everything from military strategy to natural resource management Through histories of these extremely cold environments this volume makes a novel intervention in Cold War historiography one whose global and transnational approach undermines the simple opposition of East and West

Language Policy at the Supranational Level Huan Yik Lee, M. Obaidul Hamid, Ian Hardy, 2024-10-21 This book provides a critical examination of the English only policy of ASEAN the Association of the ten Southeast Asian nations It presents the ASEAN language policy and planning LPP journey through time rationalising English as the sole working language for ASEAN in the past followed by a critique of the status quo considering regional complexities and dynamics and finally exploring alternative linguistic futures for ASEAN and the Southeast Asian region The book also offers methodological innovations in LPP research by utilising the largely underrepresented and undervalued agency of people with expertise The authors argue for a multilingual commitment towards pursuing an agency of projectivity in co constructing imagined LPP possibilities to reflect the region s socio historical context socio political intricacies and socio linguistic diversity The way forward is a more inclusive equitable balanced and responsible approach to LPP both regionally and globally The book engages with both deconstructive and constructive paradigms offering promising proposals for dealing with key language issues and contemporary challenges This book will be interesting reading for language and education scholars sociolinguists historians political scientists policymakers diplomats language activists media personnel business leaders tourism players and other language policy and planning actors operating at national sub national and supra national levels Urban Religious Events Paul Bramadat, Mar Grier, Marian Burchardt, Julia Martinez-Ariño, 2021-04-08 How might we best understand the relationship between the vibrant religious landscapes we see in many cities and contemporary urban social processes Through case studies drawn from around the world contributors explore the ways in which these processes interact in cities This book argues that religious events including rituals processions and festivals are not only choreographies of sacred traditions but they are also creative disruptions that reveal how urban cultural hierarchies are experienced and contested Exposing the power dynamics behind these events this book shows how performative uses of urban space serve to destabilize dominant genealogies and lineages around urban identities just as they lay claims to cultural supremacy or heritage Through exploring the affective disruptions and political controversies caused by religious events the contributors engage theoretical discussions in urban studies the sociology of religion and the ethnography of ritual This book is a significant contribution to understanding emerging patterns in contemporary religion and also for theories related to heritagization eventization and urbanization **Fixing Food** Richard A. Williams Ph.D., 2021-10-19 With about half of the U S population expected to be obese by 2030 and one out of six Americans getting sick every year why is the Food and Drug Administration spending years trying to figure out if almond milk should be called milk As a twenty seven year veteran of the FDA s Center for Food Safety and Nutrition Dr Richard A Williams poses this question Dr Williams also questions the accuracy of more than thirty years of food labeling coupled with consumer education on diet disease relationships and failed attempts to get consumers to track intakes It is time for the American people to look elsewhere for solutions rather than relying on the FDA Fixing Food takes you inside the FDA and explores the inner workings that drove failed strategies

Following his tenure at the FDA Dr Williams spent more than a decade investigating new sciences including genetic and microbial sciences that are leading to innovative foods and products With one of the greatest public health crises in American history ongoing this research aims to solve our issues with food once and for all In this book you will learn How FDA controls Congress the Courts and the Executive Branch and others who might be a threat to their resources and growth of power How the FDA misuses risk assessment and cost benefit analysis How the FDA s most recent innovation to keep food safe is fifty years old Why food labeling has been a disaster How entrepreneurs are remaking foods to be safer and healthier How new medical devices will ultimately make nutrition as easy as using a cell phone How trying to educate consumers through food labeling has been a public health disaster Ultimately the role of the FDA in the new world of food safety and nutrition must change if the agency is to stay relevant
