

The history of Mombasa is one of the most fascinating stories in Kenya. The city was established by Somali traders who had left their country due to the decline of the once vibrant Islamic trading empire.

The Swahili civilization started here, led by Arab traders who came to trade for gold, ivory, and slaves. Mombasa became a center for Islamic scholars and scientists during the 16th century until it was captured by Omani forces in 1698. After Omani rule, Mombasa became part of the British East Africa Protectorate before becoming Kenya's first capital in 1963.

Mombasa is a hub of East African trade and commerce, it is also Kenya's second-largest city after Nairobi with an estimated population of 1.92 million inhabitants as per 2017 census data.

Mombasa has a lot to offer – culturally, historically, geologically, geographically, and archaeologically. It has a diverse and colorful history and is home to various international communities. It's what makes it so unique & memorable to tourists, which isn't common for many tourist spots globally.

disruptive effects In highlighting the range of commercial cosmopolitan practices that grew out of early modern globalisation the book demonstrates that it provided robust alternatives to the universalising western imperial model of the later period Deploying a number of interdisciplinary methodologies the kind of methodological cosmopolitanism that Ulrich Beck has called for chapters provide agency centred evaluations of the risks and opportunities inherent in the ambiguous role of the cosmopolitan who often playing on and mobilising a number of identities operated in between and outside of different established legal social and cultural systems The book will be important reading for students and scholars working at the intersection of economic global and cultural history
