

INSTALL AND ADJUST THE D-HANDLE

1. Push the D-handle down onto the shaft housing so that the handle slants towards the shaft grip (Fig. 1). The squared bolt hole in the handle is to the right.

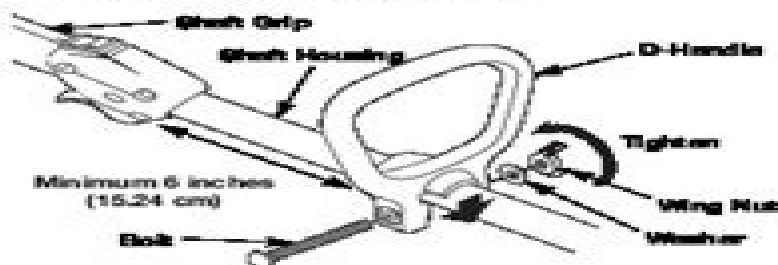

Fig. 1

2. Insert the shoulder bolt into the squared hole in the handle and push through. On the left side of the handle, place the washer on the bolt, then screw the wing nut onto the bolt. Do not tighten until you make the handle adjustment.
3. Rotate the D-handle to place the grip above the top of the shaft housing. Place it a minimum of 8 inches (20.32 cm) from the end of the shaft grip.
4. While holding the unit in the opening position (Fig. 2), position the D-handle to the location that provides you the best grip.
5. Tighten the wing nut until the D-handle is secure.

Fig. 2

INSTALL THE CUTTING ATTACHMENT SHIELD

Use the following instructions if the cutting attachment shield on your unit is not installed.

WARNING: Never operate the trimmer without the cutting attachment shield in place to prevent serious personal injury.

1. Place the cutting attachment shield onto the shaft housing. Be sure the guard mounting bracket slides into the slot on the edge of the cutting shield. Rotate the shield into place, counterclockwise. The holes in the guard mounting bracket and cutting attachment shield will line up (Fig. 3).

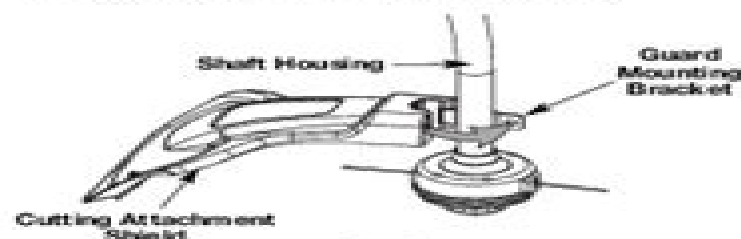

Fig. 3

2. From behind the cutting attachment shield, push the square bolt through the hole until the threaded end protrudes through the guard mounting bracket (Fig. 4).

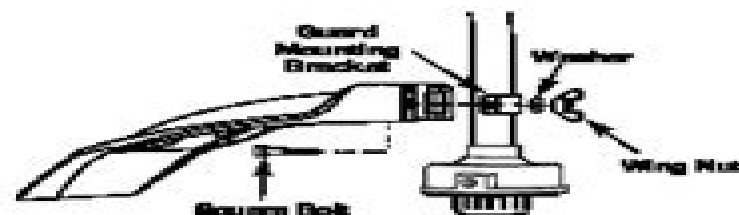

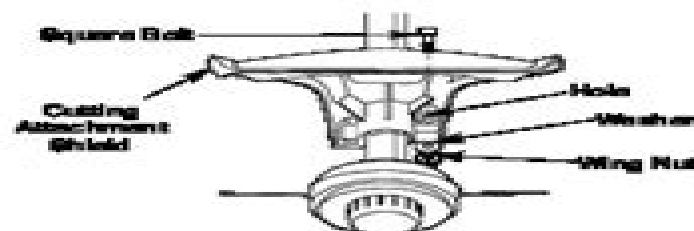

Fig. 4

3. Put the washer on the bolt, then screw the wing nut onto the bolt and tighten. Figure 5 shows the installation process from underneath the unit.
