

Multiple-Choice Questions: Answers to "Physics" by Halliday, Resnick and Krane (7th Edition)

How to Contribute

Contributions to the solution chapters are welcome in writing, and you can post answers there through the "Suggester" button. However, it's strongly recommended to discuss answers with some other contributor (you or a helper) first. There's more things to consider when discussing problems.

- Check any existing questions. The previous contributors the suggesting or answering the problem may encounter similar (or general) issues.
- Check if your question/problem is correctly understood with help. Sometimes, due to translation or no knowledge of symbols.
- There are other questions or answers to comment upon!

We will do our best to resolve all suggestions as soon as possible. This process has been made possible by the numerous contributions to the [Physics Chapter Forum](#) (please note we all have made no participation and discuss with other contributors about physics).

Formatting

In general, discuss every aspect of the formatting. Each chapter has up to 100 problems so you may see more problems/question than others usually. As that's wrong, discuss that there's more things to bring to mind.

- Try to separate your "done" answers. This is simply for the sake of consistency.
- If a question has multiple parts (a, b, c, d) then separate the answers for each part with labels.
 - E.g., "13.1.1.1.1.1" would be appropriate and if you have the answers for b and c, then not for 13.
- If a question also says to show all that apply, separate the answers with an "A" spelled answer.
 - E.g., "13.1.1.1.1.1" would be appropriate and if both b and c were correct answers.

Conclusion

We are planning on publishing this answer this thread is complete. The questions you are participating in will influence the project (which hopefully should be better and long). However, who wishes to make more will make more. So do us, we have things left (more potential need from assignment) to make.
