Enjoying Ornithology Ronald Hickling:

Enjoying Ornithology Ronald Hickling, 2010-11-30 In the year 1983 the British Trust for Ornithology celebrated its first 50 years This volume records much of the history of birdwatching and ornithology since the early 1930s The book is not a history of the BTO but many of the Trust's achievements helped fashion the development and direction of ornithology over the decades and major aspects of the Trust's work rightly have detailed treatment The book ranges widely it looks at the changing bird as well as the changing bird watcher and records the work of related conservation bodies it considers the future and the past and includes an extensive section of useful facts and figures whilst never losing sight of the central theme which is the book's title

The New Environmental Age Max Nicholson, 1987 The message of this book is that a concern for environmental issues no longer needs justification Its aim is to put environmental conservation into perspective by looking at its achievements failures and problems and by examining the challenges and opportunities it faces

Etta Lemon Tessa Boase, 2021-07-06 Etta Lemon The Woman Who Saved the Birds is the story of a pioneering conservationist who led the campaign against the slaughter of wild birds for extravagantly feathered hats and coaxed the world to care for birds

The Role of Birds in World War One Nicholas Milton, 2023-02-16 The British Expeditionary Force sent to France in the late summer of 1914 has been referred to as The Best British Army Ever Sent to War as it was one of the most highly trained and disciplined forces in the world It was also the Best Birdwatching Army Ever Sent to War for among its ranks were hundreds of both amateur and professional ornithologists When not fighting many soldiers turned to birdwatching as a way of wiling away the long hours spent on guard duty or watching over no man's land As a result the hobby ranked as one of the most popular past times for soldiers at the front on a par with smoking writing games gambling sport and shooting rats The list of birds seen by soldiers serving in all the theatres of war was truly impressive ranging from the common like sparrows skylarks and swallows to the exotic like golden orioles hoopoes and bee eaters It was not just at the battle front that birds found themselves in the firing line but also on the home front Birds provided inspiration for politicians poets and painters who carried on despite the terrible conflict raging all around them For the Foreign Secretary Edward Grey who worked tirelessly to preserve peace but ended up convincing the House of Commons to go to war birds were his hinterland But as well as declaring war on Germany on 4 August 1914 the government also declared war on the humble house sparrow farmers falsely accusing it of destroying Britain's dwindling wheat and oat supplies When the guns finally fell silent on the 11 November 1918 and the Great War came to an ignoble end a generation of birdwatchers lay dead Among them were scientists researchers lords librarians artists authors professors poets lawyers surgeons and explorers many barely having entered manhood If they had lived the science of ornithology and the hobby of birdwatching would have undoubtedly been much the richer A selection of them is included in the Ornithological Roll of honor at the back of this book

Moral Entanglements Stefan Bargheer, 2018-04-05 At the center of Stefan Bargheer's account of bird watching field ornithology and nature

conservation in Britain and Germany stands the question of how values change over time and how individuals develop moral commitments Using life history data derived from written narratives and oral histories *Moral Entanglements* follows the development of conservation from the point in time at which the greatest declines in bird life took place to the current efforts in large scale biodiversity conservation and environmental policy within the European Union While often depicted as the outcome of an environmental revolution that has taken place since the 1960s Bargheer demonstrates to the contrary that the relevant practices and institutions that shape contemporary conservation have evolved gradually since the early nineteenth century *Moral Entanglements* further shows that the practices and institutions in which bird conservation is entangled differ between the two countries In Britain birds derived their meaning in the context of the game of bird watching as a leisure activity Here birds are now as then the most popular and best protected taxonomic group of wildlife due to their particularly suitable status as toys in a collecting game turning nature into a playground In Germany by contrast birds were initially part of the world of work They were protected as useful economic tools rendering services of ecological pest control in a system of agricultural production modeled after the factory shop floor Based on this extensive analysis Bargheer formulates a sociology of morality informed by a pragmatist theory of value *Birds*, 1992 **Island Thinking** Sophia Davis, 2019-07-30 *Island Thinking* is a cultural historical and geographical study of Englishness in a key period of cultural transformation in mid twentieth century Britain as the empire shrank back to its insular core The book uses a highly regional focus to investigate the imaginative appeal of islands and boundedness interweaving twentieth century histories of militarisation countryside nature conservation and national heritage to create a thickly textured picture of landscape and history Referred to as an island within an island Suffolk's corner of England provides fascinating stories displaying a preoccupation with vulnerability and threat refuge and safety The book explores the portrayal of the region in mid century rural writing that rediscovered the countryside as well as the area's extensive militarisation during the Second World War It examines various enclosures from the wartime radar project to make Britain an island again to the postwar establishment of secluded nature reserves protecting British birds *Scottish Birds*, 1983 **The Atlas of Wintering Birds in Britain and Ireland** Peter Lack, 2010-11-30 This companion volume to *The Atlas of Breeding Birds of Britain and Ireland* is derived from surveys of birds present in Britain and Ireland during the three winters 1981/82 1982/83 and 1983/84 The surveys were organised by the British Trust for Ornithology and the Irish Wildbird Conservancy as were the earlier breeding birds surveys The *Winter Atlas* maps 200 species 192 of which have full page two colour maps faced by a page of text The texts written by over 100 specialists comment on the survey results the species generally and the distribution and abundance as mapped In addition there are introductory chapters on the maps the weather in the three winters bird patterns and movements and appendices describing the planning organisation field methods and processing of the survey data from record cards to computer output and maps A team of 23 artists led by Robert Gillmor has provided the line drawings which head the species accounts *BBC*
