Decolonizing Educational Assessment Ardavan Eizadirad, 2019-09-06 This book examines the history of standardized testing in Ontario leading to the current context and its impact on racialized identities particularly on Grade 3 students parents and educators Using a theoretical argument supplemented with statistical trends the author illuminates how EQAO tests are culturally and racially biased and promote a Eurocentric curriculum and way of life privileging white students and those from higher socio economic status This book spurs readers to further question the use of EQAO standardized testing and challenges us to consider alternative models which serve the needs of all students Grade 3 Test - Parent Guide ,

Handbook of Research on Leadership Experience for Academic Direction (LEAD) Programs for Student Success Salinitri, Geri, 2020-02-28 Leadership Experience for Academic Directions LEAD is a program that was developed as a service learning program for teacher candidates in preparation for the teaching career As youth populations continue to diversify and as the issues impacting youth continue to surface it is the responsibility of educators administrators and the governments to provide all the opportunities for youth to succeed academically socially and personally Teachers especially are instrumental in making this happen therefore it is imperative that teachers come into the profession with the cognitive and non cognitive skills to motivate youth to succeed The Handbook of Research on Leadership Experience for Academic Direction LEAD Programs for Student Success s a critical scholarly book that explores the many facets of the teaching profession as they relate to working with at risk youth and helping them reach their full potential This book provides the groundwork for programs that will succeed at the K 12 education level and at the teacher education level Featuring a range of topics such as human capital mental health and social learning theory this book is essential for academicians teaching professionals administrators professional development educators policymakers researchers and students **Passing the Test** Marita Moll, 2004 *Between Caring & Counting* Lindsay Kerr, 2006-01-01 One of the key planks of conservative Ontario premier Mike Harris s 1990s platform was education reform Amid a sea of official reports policy documents and expert opinions on education however the voices of actual classroom teachers were difficult to find This omission is redressed in Lindsay Kerr s *Between Caring Counting* Through a focus group of present day secondary school teachers in Toronto Kerr delivers a passionate account of the unassailably negative changes affecting secondary education and teachers work From a critical feminist perspective and using institutional ethnography Kerr situates the problem in education squarely as a conflict between an accounting logic and an ethic of care at the centre of education practice She exposes paradoxes inherent in education reform such as the increase of government control at the same time that government funding for education decreases She also connects educational restructuring to changes in the power relations of gender class and race across the public education system These local changes she finds do not reflect sound pedagogy but the imperatives of neoliberal globalization Counteracting despair with hope Kerr explores self reflexive suggestions for teacher educators to exercise

agency in their lives and to continue to work toward a just and equitable public education system **From Hope to Harris**

Robert Douglas Gidney,1999-01-01 Are the sweeping changes to Ontario s education system introduced under the Harris government bad or wrong Gidney places them in context charting the major landmarks and debates that have washed over the educational landscape in Ontario from the 1950s **People at Work** Marjorie L. DeVault,2008-03 People at Work is noted sociologist Marjorie L DeVault s groundbreaking collection of original essays on the complexities of the modern day workplace By focusing on the lived experiences of the worker not as an automaton on an assembly line but as an embodied human of flesh and bone these essays offer important insight on the realities of the workplace and their effects on life at home and in communities With contributions from some of today s top scholars each essay is a detailed case study of a different aspect of the working world Compelling lively and sometimes chilling the contributors address issues from disability rights to immigrant labor welfare reforms to budget cuts competition to personal motivations Each one valuable on its own the essays in People at Work combine to illuminate the hurdles that workers of all backgrounds struggle with and more broadly the impact of change on workers lives in the new increasingly global economy **Pedagogy of Multiliteracies**

large scale international study of teachers in Los Angeles Chicago Ontario and New York this book illustrates the ways increased use of high stakes standardized testing is fundamentally changing education in the US and Canada with a negative overall impact on the way teachers teach and students learn Standardized testing makes understanding students strengths and weaknesses more difficult and class time spent on testing consumes scarce time and attention needed to support the success of all students further disadvantaging ELLs students with exceptionalities low income and racially minoritized students
