

# BBI2O Grade 10 Business – Final Exam

## Business Exam Notes

### 1. *Economics*

#### Need vs. Wants

- Needs = necessary for survival , wants are not
- One set of wants can lead to the other
  - E.g. want to win the lottery, which makes it easier to satisfy other wants

#### Goods vs. Services

- Goods (e.g. Staples sells electronic goods)
- Services (e.g. food bank provides service to community)

#### Producer vs. Consumer

- Producers are the business that make goods or provide services
- Consumers are the people who buy the things/services that producers supply
  - E.g. buying a computer, servicing at computer-repairing shops
- Producers and consumers operate together to create a marketplace, which is any place where they engage in the buying and selling of goods/services

#### Demand and Supply

- **Demand** – the quantity of good/service that consumers are willing and able to buy at a particular price
  - Law of Demand
    - As price goes up, demand goes down. Vice versa.
  - Influences on demand
    - Expectations
    - Competition's price
    - Change in income
  - If demand is low, supply is high, prices go down
  - If demand is high, supply is low, prices go up
- **Supply** – the quantity of good/service that businesses are willing/able to provide within a range of prices that people would be willing to pay
  - Law of Supply
    - As price goes up, supply goes up. Vice versa.

*Microeconomic Theory* Frederic S. Lee, 2017-11-20 *Microeconomic Theory A Heterodox Approach* develops a heterodox economic theory that explains the economy as the social provisioning process at the micro level Heterodox microeconomics explores the economy with a focus on its constituent parts and their reproduction and recurrence their integration qua interdependency by non market and market arrangements and institutions and how the system works as a whole This book deals with three theoretical concerns Due to the significance of the price mechanism to mainstream economics a theoretical concern of the book is the business enterprise markets demand and pricing Also since heterodox economists see private investment consumption and government expenditures as the principal directors and drivers of economic activity a second theoretical concern is business

decision making processes regarding investment and production government expenditure decisions the financing of investment the profit mark up and the wage rate and taxes Finally the third theoretical concern of the book is the delineation of a non equilibrium disaggregated price output model of the social provisioning process This book explores the integration of these various theories with a theoretical model of the economy and how this forms a theory that can be identified as heterodox microeconomics It will be of interest to both postgraduates and researchers **Providence Magazine** ,1923
