A Book Called Our Ancestors the Stantons William Henry Stanton, 1922 **History of woman suffrage. Vol.1-3, ed. by E.C. Stanton, S.B. Anthony, and M.J. Gage; vol.4, ed. by S.B. Anthony and I.H. Harper; vol.5,6, ed. by I.H. Harper** Susan Brownell Anthony, Ida Husted Harper, Elizabeth Cady Stanton, 1882 *Military Intelligence*, 1992 *The Suffragist Peace* Joslyn Barnhart, Robert F. Trager, 2023 Women's suffrage is often recognized as one of the most significant political events of the 20th century. But conventional wisdom has long held that giving women the right to vote has had little effect on our world. *The Suffragist Peace* shatters this perspective. An authoritative history of the entire century in which women have had the vote, this book shows how the political influence of women at the ballot box has made the world a more peaceful place. Wars have not ended, but this book powerfully demonstrates how women gaining the franchise has contributed to war's decline over the past century. *Building Your Own Theology* Richard S. Stanton, 2021-06-24 Using empirical qualitative research this book conceptualises and demonstrates the value of local practical knowledge for peacebuilding in the context of Northern Ireland There are increasing calls to involve local people to ensure legitimacy relevance and sustainability when seeking to build peace and transform violent conflict However as peacebuilding becomes increasingly professionalised this raises fundamental questions about whose knowledge matters for building peace and what kind of knowledge matters Seeking to address these questions and to learn from applied practice this book provides a qualitative empirical research study investigating 40 practitioners active in conflict transformation at a grassroots level in Northern Ireland over 50 years This research led not only to recapturing lost knowledge from practitioners but also to a neglected virtue the Aristotelian concept of practical wisdom *phronesis* This book argues that *phronesis* has deepened our understanding of why local practical knowledge is vitally important and calls for its global rediscovery as knowledge necessary for building sustainable peace This book will be of much interest to practitioners and students in the fields of peacebuilding conflict resolution philosophy and British and Irish politics **The Commonweal**, 1941
